Book Excerpt: o as he asked, would he let me alone. Wednesday evening we had a fine surprise: two of our "missing" returned. They had been forced to land behind the enemy's line because their motor had stopped. They were hardly down when the "Pisangs" (French peasants) came running toward them from every direction. They managed to get into a nearby woods by beating a hasty retreat. Behind them they heard the yelling of the men and women. The woods was surrounded, and they had to hide till night fell. Then they escaped into the Argonne Forest, under cover of darkness although fired on a number of times. Here they spent five days, avoiding French troops. As they had only berries and roots to eat, and could only travel at night, they were almost ready to surrender. But on the morning of the seventh day they heard someone say, in German, "Get on the job, you fool." Those were sweet words to them, for it was a scouting party of German Dragoons. Thus, they got back to us. M., SEPTEMBER 10, 1914 Yesterday I wRead More

A guidebook to seducing, satisfying, and loving the only man you'll ever need In an act of generosity, Adrian Colesberry has written an exquisitely detailed guidebook to ensure that every reader knows precisely how to please him - in bed and beyond. Brimming with self-indulgent and incredibly bawdy humor, How to Make Love to Adrian Colesberry is a sexual memoir disguised as a manual on Colesberry's pet peeves, favorite positions, and surefire ways to turn on your man (aka Adrian Colesberry). Recounting dozens of annoying peccadilloes and helpful pro tips gleaned from his experiences with former lovers, Colesberry covers all corners to ensure that no stage of the court-and-conquer process is overlooked. Beginning with how to attract Colesberry, he later progresses to foreplay and finally the full monty, revealing his own erratic, often unerotic sexual history along the way. From his awkwardly celibate teenage years to the emotional scars inflicted by his domineering ex-wife, Colesberry muses on bondage, three-ways, toys, bi-curiosity, and other kinks. A pitch-perfect parody that spares no detail, How to Make Love to Adrian Colesberry is a hilarious and filthy new entrant into the fratire genre.

A dictionary of computer words and terms from "access time" to "Z code."

An urgent and provocative account of the modern 'militant', a transformative figure at the front line of emancipatory politics.

Around the world, recent events have seen the creation of a radical phalanx comprising students, the young, workers and immigrants. It is Badiou's contention that the politics of such militants should condition the tasks of philosophy, even as philosophy clarifies the truth of our political condition. To resolve the conflicts between politics, philosophy and democracy, Badiou argues for a resurgent communism – returning to the original call for universal emancipation and organizing for militant struggle.

The name Atchison, Topeka & Santa Fe Railway conjures images of bright red and silver Warbonnet diesels pulling gleaming stainless-steel passenger trains across the plains of Kansas and the pine-covered forests of Arizona. Highlights include the Chief, Texas Chief, San Francisco Chief, El Capitan and Super Chief (often referred to as "Train of the Stars" for the movie-stars and celebrities who believed there was only one way, the Super Chief Way, to travel between Los Angeles and Chicago). A full color chapter on Santa Fe Chief trains is accompanied by vintage travel brochures and advertising. Photos include the California Limited, Chicagoan, Kansas Cityan, Navajo, Ranger, Scout, and Grand Canyon Limited with connecting service to Grand Canyon National Park. Santa Fe's partnership with Harvey House depot restaurants is shown in picture postcards with the legendary Harvey Girls.

A fun, illustrated history of the umbrella's surprising place in life and literature Humans have been making, using, perfecting, and decorating umbrellas for millennia--holding them over the heads of rulers, signalling class distinctions, and exploring their full imaginative potential in folk tales and novels. In the spirit of the best literary gift books, Brolliology is a beautifully designed and illustrated tour through literature and history. It surprises us with the crucial role that the oft-overlooked umbrella has played over centuries--and not just in keeping us dry. Marion Rankine elevates umbrellas to their rightful place as an object worthy of philosophical inquiry. As Rankine points out, many others have tried. Derrida sought to find the meaning (or lack thereof) behind an umbrella mentioned in Nietzsche's notes, Robert Louis Stevenson wrote essays on the handy object, and Dickens used umbrellas as a narrative device for just about everything. She tackles the gender, class, and social connotations of carrying an umbrella and helps us realize our deep connection to this most forgettable everyday object--which we only think of when we don't have one.

This book will show you how to transition from previous versions of Microsoft® Visual Studio, to Visual Studio 2010. The book will showcase new features in Visual Studio 2010 that ease the creation of applications. Real-world applications will be used throughout to demonstrate the features and ease of use. This book is for professional developers who are working with previous versions of Visual Studio and are looking to make the move to Visual Studio 2010 Professional. The book is not a language primer, a language reference, or a single technology book. It's a book that will help professional developers move from previous versions of Visual Studio (starting with 2003 and on up). It will cover the features of Visual Studio 2010 through an application. It will go through a lot of the exciting new language features and new versions of the most popular technologies without putting the emphasis on the technologies themselves. It will instead put the emphasis on how you would get to those new tools and features from Visual Studio 2010. If you are expecting this book to thoroughly cover the new Entity Framework or ASP.NET MVC 2, this is not the book for you. If you want to read a book where the focus is on Visual Studio 2010 and on the reasons for moving to Visual Studio 2010, this is the book for you.

Tracing the rise of commercial fetish art from its shadowy beginnings in the 1940s to its acceptance in the 1970s, this illustrated biography explores the unconventional life and art of Eric Stanton, a pioneering sexual fantasist who helped shape the movement. With more than 400 rare images and interviews with Stanton's family and closest associates, this biography chronicles the infamous circle of patrons, publishers, and cult icons populating his subterranean world, including Irving Klaw, John Willie, Bettie Page, Steve Ditko, and Gene Bilbrew. It is the untold, secret history of a misunderstood culture, the abuses of government authority, social intolerance, and gangsters. But above all, it is a tale about survival against all odds and an artist who had the courage to stay true to himself.

The 13th International Conference on Human-Computer Interaction, HCI International 2009, was held in San Diego, California, USA, July 19-24, 2009, jointly with the Symposium on Human Interface (Japan) 2009, the 8th International Conference on Engineering Psychology and Cognitive Ergonomics, the 5th International Conference on Universal Access in Human-Computer Interaction, the Third International Conference on Virtual and Mixed Reality, the Third International Conference on Internationalization, Design and Global Development, the Third International Conference on Online Communities and Social Computing, the 5th International Conference on Augmented Cognition, the Second International Conference on Digital Human Modeling, and the First International Conference on Human Centered Design. These papers address the latest research and development efforts and highlight the human aspects of the design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas.

Bala dreams of making Tamil films and directing his favourite actor Rajnikanth ? a dream that leads him naturally to study engineering in college. This earns him his father's approval and the opportunity to export himself to America. As Director of Design at Flexit Inc., thinking up new ways to help Americans shed the excess weight around their middles and in their wallets, he is at least some kind of director. Bala loves America, and America it seems loves him even more. He has everything he needs to be happy: a green card, a satellite dish to watch cricket and a companion to share his home ? albeit one with a very limited vocabulary. But he is now less than a year away from the big 30, and if he doesn't act fast he might have to settle for whichever bride his Amma chooses. So begins Bala's quest for romance as he meets both American and Indian women. Some who are too old, others too young, and yet others just too stuck up. Will he ever find someone just right for him ? and good enough to inherit his mother's Corelle dishes?

Part I of my two-part life memoir. This is about the things that were sent to kill me.

Drug discovery is all about finding small molecules that interact in a desired way with larger molecules, namely proteins and other macromolecules in the human body. If the three-dimensional structures of both the small and large molecule are known, their
