THE STATUETTE is literary fiction, with a wisp of the paranormal. It tells the story of how a curious incident in the Madrid sky not only stuns most residents of the city but also brings 2 people — both seeking answers to 2 apparently unrelated questions — together. One is Art, a daredevil freelance investigative journalist with a passion

for the inexplicable. Convinced that contrary to what many television pundits are inferring, the event in the sky is far more than a mere atmospheric phenomenon, he sets out to investigate that strange appearance in the sky. The other is Regina, a Nigerian curator who is lured to Spain by a group of con artists with the promise of a brilliant fresh start. Nevertheless, on arrival she is savagely bitten by reality. She is seeking redress for that deceit and answers to the sudden disappearance of her best friend when she stumbles across Art. Following their apparent chance meeting they realise that to achieve their individual objectives, they need each other. Slowly, a curious sort of friendship evolves between them. In the course of his investigation Art comes across Santi, an eccentric artist who is also a collector — he collects just about anything in the name of art. Incidentally, he is Regina's boss. Interestingly, though each of these 3 individuals has a different interpretation of the phenomenon in the sky, they all share the same belief: the incident is absolutely significant. However, only one of them is aware of how much so and of its impact on their lives. THE STATUETTE is multicultural too. Through Art's sometimes witty musings readers get glimpses into 2 societies: The Spanish society's sometimes laid-back attitude, its detestation of bureaucracy and its reluctance to comply with rules and regulations are reflected. The beliefs, generosity and fun-loving nature of the Nigerian society, as well as the endemic corruption and insecurity, are depicted. After reading THE STATUETTE you will never acquire any antiquity without inquiring about its provenance!

A veteran police detective, Robert Snow was devoted to evidence and hard facts—he had never given any thought to reincarnation. But during a hypnotic regression, he experiences a vivid awareness of being alive in three separate historical scenes. Remaining skeptical, Snow begins to investigate with the intention of disproving reincarnation. Instead, diligent research and corroboration from multiple sources reveal solid evidence that he lived a former life as Carroll Beckwith, a nineteenth-century American artist. Portrait of a Past Life Skeptic tells the fascinating story of Robert Snow's transformation—from skeptic to believer.

spirituality, humanity's task in creation, and the emergence of a new Western spirituality to lead us into the next stage of the evolution of consciousness. In *The BIG Picture*, author Garry Gilfoy discloses his own spiritual experiences and also tells the stories of others, such as Joy, who was sent back from the realm of spirit without her husband after a horrific crash; Trish, who died numerous times before learning to visit her cosmic classroom at will; Helen, who relived a holocaust nightmare before her eyes opened onto ancient Egypt; and Keely, who was miraculously saved by a familiar figure, the Watcher. Gilfoy helps us contemplate deeper meanings and refocus the lens through which we view the world. *The BIG Picture* guides us to ponder unusual possibilities that can shift the point of reference for our earthly thoughts and deeds.

Letters from Linda M. Montano is an anthology of writings by one of the seminal performance artists of the last century. It provides an autobiographical and historical record of Montano's artistic practice over the last thirty years, collecting together stories, fairytales, letters, interviews, manifestos and other previously unpublished writings. At the same time, the book acts as a 'how-to' manual for aspiring performance artists, offering practical guidance for students and a range of exercises that Montano has used in her teachings and workshops. Finally, *Letters from Linda M. Montano* represents a performance in itself, in which the artist considers the process of writing, creating and bringing the work to fruition as another form of 'endurance performance' similar to that of her durational works *14 Years of Living Art* and *Blood Family Art*. Has your child lived before? In this fascinating, controversial, and groundbreaking book, Carol Bowman reveals overwhelming evidence of past life memories in children. Not only are such experiences real, they are far more common than most people realize. Bowman's extraordinary investigation was sparked when her young

son, Chase, described his own past-life death on a Civil War battlefield--an account so accurate it was authenticated by an expert historian. Even more astonishing, Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory. Inspired by Chase's dramatic healing, Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives, spontaneously and naturally. In *Children's Past Lives*, she tells how to distinguish between a true past life memory and a fantasy, offers practical advice to parents on how to respond to a past life memory, and shows how to foster the spiritual and healing benefits of these experiences. Perhaps the most moving, convincing, and best-documented evidence yet for life after death, *Children's Past Lives* will stand alongside the classics of Betty J. Eadie, Raymond Moody, and Brian Weiss in its power to comfort, uplift, and transform our thinking about life after death

Hypnotic Regression Therapy, or HRT, is a type of hypnotherapy in which, following the induction of a good trance state, specialized suggestions are given to guide the client in reviewing and emotionally reframing earlier experiences that have either caused or contributed to the client's current symptoms. HRT is considered one of the most valuable hypnotherapy techniques available today, yet it remains controversial, partly due to inadequate training of psychotherapists and hypnotherapists which has contributed to numerous cases of false memory syndrome.
