First published in 1975, *The Cage* was a graphic novel before there was a name for the genre. Considered an early masterpiece of the genre, the Canadian cult comic has been out of print for decades. The new edition includes an introduction by Canadian comics master and Lemony Snicket collaborator Seth (Palookaville; *It's a Good Life, If You Don't Weaken*). Cryptic and disturbing, like Dave Gibbons (*Watchmen*) illustrating a film by Ozu, *The Cage* spurns narrative for atmosphere, guiding us through a series of disarrayed rooms and desolate landscapes, tracking a stuttering and circling time and a sequence of objects: headphones, inky stains, bedsheets. It's not about where we're going but how – if – we get there.

Elsie Jeanette Oxenham wrote over ninety books and stories for girls, most of which were published between 1907 and 1959. In 1991 her niece, Elspeth Wendy Dunkerley, discovered several books and stories in manuscript form, two of which were published in 1992 and 1993. This list places the books in their series, and suggests a reading order which seems to make 'best sense'. Each major series has been assigned a code, consisting of one or two letters. Then within the series, books are numbered. This numbering may not correspond with the order of publication date.

development well past the traditional age of retirement. Elderlearning examines the important role of learning in maintaining the health, quality of life, and longevity of older adults, and in providing opportunities for them to take on new roles in society. This book includes the results of the first comprehensive survey on the topic of adult learning in men and women over the age of 55. The authors provide key data on the sources, topics, and extent of the current learning activities of older adults, as well as on their preferred learning modes. Adult learning is viewed from the perspective of providers of learning services, as well as from the viewpoint of individual learners. This information is based on extensive interviews with elderlearners and with learning services providers across the country. The authors also discuss the policy implications of the elderlearning phenomenon at the federal, state, and institutional levels. They conclude the book with a recommended eight-point agenda for improving service to this rapidly growing segment of the population.

Elderlearning will be a valuable aid to anyone involved in developing - or teaching - programs designed to meet the needs of older adults, as well as to elderlearners themselves. The day is fast approaching when the compilation of the many testimonies manifest in the various branches of His church will be woven together into a beautiful tapestry revealing the effort to which the Holy Spirit has gone, that God might have a happy, and united people. Yet today, the Restored Church is fractured. In this book, author Patrick McKay uses figurative language, common testimony, and prophetic expressions to illustrate the personal conviction, great spiritual truths, and lofty ideals of our epic latter-day theme. Each branch of the Restored Church has a rich legacy of testimony that has been created, preserved, and transmitted to them from the initial days of the Restoration, reminding us all of our spiritual birthright as inheritors of the angel message. McKay has seen the destiny of the Saints of the Restoration, and has written to set them free, offering fresh insights and optimism to enliven the reader to press forward toward Zion's borderline.
