Appropriate for any course introducing management information systems from a business perspective. This casebook will serve as an ideal complement to most MIS/CIS textbooks. Designed to demonstrate how software can support managerial decision-making activities, this casebook features 24 cases (more than another casebook currently on the market) covering a wide range of functional areas throughout the business, including finance/accounting, HR, production, and information systems. The cases are spread across three difficulty levels basic, intermediate, and advanced. They present common managerial issues and problems, and encourage students to actually use their models to make decisions for the cases characters. They require students to apply spreadsheet, database, Web-page development, and/or presentation graphics software, often in an integrated manner. Many of the cases require students to prepare both written and oral presentations on their solutions. Among the topics covered in MIS Cases: Decision Making with Application Software Second Edition: forecasting, inventory decisions, what-if analyses, pricing strategies, billing decisions, and much more.

Designing Clinical Research sets the standard for providing a practical guide to planning, tabulating, formulating, and implementing clinical research, with an easy-to-read, uncomplicated presentation. This edition incorporates current research methodology—including molecular and genetic clinical research—and offers an updated syllabus for conducting a clinical research

workshop. Emphasis is on common sense as the main ingredient of good science. The book explains how to choose well-focused research questions and details the steps through all the elements of study design, data collection, quality assurance, and basic grant-writing. All chapters have been thoroughly revised, updated, and made more user-friendly.

The second edition of the Encyclopedia of Toxicology continues its comprehensive survey of toxicology. This new edition continues to present entries devoted to key concepts and specific chemicals. There has been an increase in entries devoted to international organizations and well-known toxic-related incidents such as Love Canal and Chernobyl. Along with the traditional scientifically based entries, new articles focus on the societal implications of toxicological knowledge including environmental crimes, chemical and biological warfare in ancient times, and a history of the U.S. environmental movement. With more than 1150 entries, this second edition has been expanded in length, breadth and depth, and provides an extensive overview of the many facets of toxicology. Also available online via ScienceDirect – featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options and availability visit www.info.sciencedirect.com. *Second edition has been expanded to 4 volumes *Encyclopedic A-Z arrangement of chemicals and all core areas of the science of toxicology *Covers related areas such as organizations, toxic accidents, historical and social issues, and laws *New topics covered include computational toxicology, cancer potency factors, chemical accidents, non-lethal chemical weapons, drugs of abuse, and consumer products and many more!

A Fine Balance, Rohinton Mistry's stunning internationally acclaimed bestseller, is set in mid-1970s India. It tells the story of four unlikely people whose lives come together during a time of political turmoil soon after the government declares a "State of Internal Emergency." Through days of bleakness and hope, their circumstances – and their fates – become inextricably linked in ways no one could have foreseen. Mistry's prose is alive with enduring images and a cast of unforgettable characters. Written with compassion, humour, and insight, A Fine Balance is a vivid, richly textured, and powerful novel written by one of the most gifted writers of our time.

AVAILABLE FOR THE FIRST TIME IN eBOOK! A New York Times Notable Book On the eve of his ninetieth birthday a bachelor decides to give himself a wild night of love with a virgin. As is his habit—he has purchased hundreds of women—he asks a madam for her assistance. The fourteen-year-old girl who is procured for him is enchanting, but exhausted as she is from caring for siblings and her job sewing buttons, she can do little but sleep. Yet with this sleeping beauty at his side, it is he who awakens to a romance he has never known. Tender, knowing, and slyly comic, *Memories of My Melancholy Whores* is an exquisite addition to the master's work.

For introductory courses in Management Information Systems Processes, Systems, and Information: An Introduction to MIS, Second Edition provides a concise introduction to MIS with a hands-on approach to business processes. Authored by Earl H. McKinney, Jr. and David M. Kroenke, the text shows you exactly how businesses use information systems and technology to accomplish their goals, objectives, and competitive strategy. Packed with examples of business situations, both real and fictitious, the book helps you understand what business systems actually are—and see why they are so important. The text consists of the five SAP-focused chapters from McKinney and Kroenke's *Processes, Systems, and Information: An Introduction to MIS*. A pair of

appendices after chapters four and five contains SAP process exercises that enable you to get hands-on experience applying what you're learning in the course. This clear emphasis on business processes, and SAP in particular, makes *Processes, Systems, and Information: An Introduction to MIS, Second Edition* the ideal text for courses attended by those not majoring in MIS. The Education of Little Tree tells of a boy orphaned very young, who is adopted by his Cherokee grandmother and half-Cherokee grandfather in the Appalachian mountains of Tennessee during the Great Depression. "Little Tree" as his grandparents call him is shown how to hunt and survive in the mountains, to respect nature in the Cherokee Way, taking only what is needed, leaving the rest for nature to run its course. Little Tree also learns the often callous ways of white businessmen and tax collectors, and how Granpa, in hilarious vignettes, scares them away from his illegal attempts to enter the cash economy. Granma teaches Little Tree the joys of reading and education. But when Little Tree is taken away by whites for schooling, we learn of the cruelty meted out to Indian children in an attempt to assimilate them and of Little Tree's perception of the Anglo world and how it differs from the Cherokee Way. A classic of its era, and an enduring book for all ages, The Education of Little Tree has now been redesigned for this twenty-fifth anniversary edition.

Using MIS is the book that teaches students how people use information systems to solve business problems. Building on students' experience and knowledge base from personal MIS to workgroup MIS to enterprise MIS, this text stresses the important role of Information Systems in satisfying business objectives. In his most extraordinary book, the bestselling author of Awakenings and "poet laureate of medicine" (The New York Times) recounts the case histories of patients inhabiting the compelling world of neurological disorders, from those who are no longer able to recognize common objects to those who gain extraordinary new skills. Featuring a new preface, Oliver Sacks's The Man Who

Mistook His Wife for a Hat tells the stories of individuals afflicted with perceptual and intellectual disorders: patients who have lost their memories and with them the greater part of their pasts; who are no longer able to recognize people and common objects; whose limbs seem alien to them; who lack some skills yet are gifted with uncanny artistic or mathematical talents. In Dr. Sacks's splendid and sympathetic telling, his patients are deeply human and his tales are studies of struggles against incredible adversity. A great healer, Sacks never loses sight of medicine's ultimate responsibility: "the suffering, afflicted, fighting human subject." The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

"A witty, romantic, deeply insightful debut." —Emma Lord, author of Tweet Cute In this sparkling and romantic YA debut, a reserved Bangladeshi teenager has twenty-eight days to make the biggest decision of her life after agreeing to fake date her school's resident bad boy. How do you make one month last a lifetime? Karina Ahmed has a plan. Keep her head down, get through high school without a fuss, and follow her parents' rules—even if it means sacrificing her dreams. When her parents go abroad to Bangladesh for four weeks, Karina expects some peace and quiet. Instead, one simple lie unravels everything. Karina is my girlfriend. Tutoring the school's resident bad boy was already crossing a line. Pretending to date him? Out of the question. But Ace Clyde does everything right—he brings her coffee in the mornings, impresses her friends without trying, and even promises to buy her a dozen books (a week) if she goes along with his fake-dating facade. Though Karina agrees, she can't help but start counting down the days until her parents come back. T-minus twenty-eight days until everything returns to normal—but what if Karina no longer wants it to? "I. Love. This. Book." —Mark Oshiro, award-winning author of Anger Is a Gift and Each of Us a Desert "A must-have addition to any YA bookshelf." —Sabina Khan, author of Zara Hossain Is Here and The Love and Lies of Rukhsana Ali "Hand to fans of Netflix hit Never Have I Ever." —Booklist

Evans and new co-author Greenwell pay close attention to management in "new normal" straitened economic conditions and the pervasive impact of technology on a library manager's role.

A Yale professor and author of A Jane Austen Education evaluates the consequences of high-pressure educational and parenting approaches that challenge the mind's ability to think critically and creatively, calling for strategic changes that can offer college students a self-directed sense of purpose.

Experiencing MIS is a Canadian text that takes a business-process approach to the study of information systems. Written in a casual, conversational tone, with rich pedagogy and bold visuals, this book teaches the concepts, skills, and behaviours that are essential for success in business in the twenty-first century. This text offers a unique alternative to

MIS instructors who are constantly searching for a new and interesting approach to teaching the course. Note: MyMISLab is not included with the purchase of this product.
