A powerful and humane exploration of the history of the "insanity defense," through the story of one poignant case. When a three-year-old child was found with a head wound and other injuries, it looked like an open-and-shut case of second-degree murder. Psychologist and attorney Susan Vinocour agreed to evaluate the defendant, the child's mentally ill and impoverished grandmother, to determine whether she was competent to stand trial. Even if she had caused the child's death, had she realized at the time that her actions were wrong or was she legally "insane"? What followed was anything but an open-and-shut case. *Nobody's Child* traces the legal definition of "insanity" back to its inception in Victorian Britain nearly two hundred years ago, from when our understanding of the human mind was in its infancy, to today, when questions of race, class, and ability so often determine who is legally "insane" and who is criminally guilty. Vinocour explains how "competency" and "insanity" are creatures of a legal system, not of psychiatric reality, and how, in criminal law, the insanity defense has too often been a luxury of the rich and white. *Nobody's Child* is a profoundly dignified portrait of injustice in America and a complex examination of the troubling intersection of mental health and the law. When prisons are now the largest institutions for the mentally ill, Vinocour demands that we reckon with our conceptions of "insanity" with clarity, empathy, and responsibility.

LOS ANGELES TIMES BOOK PRIZE FINALIST • NAACP IMAGE AWARD NOMINEE • A "powerful and devastating" (The Washington Post) call to free those buried alive by America's legal system, and an inspiring true story about unwavering belief in humanity—from a gifted young lawyer and important new voice in the movement to transform the system. "An essential book for our time . . . Brittany K. Barnett is a star."—Van Jones, CEO of REFORM Alliance, CNN Host, and New York Times bestselling author Brittany K. Barnett was only a law student when she came across the case that would change her life forever—that of Sharanda Jones, single mother, business owner, and, like Brittany, Black daughter of the rural South. A victim of America's devastating war on drugs, Sharanda had been torn away from her young daughter and was serving a life sentence without parole—for a first-time drug offense. In Sharanda, Brittany saw haunting echoes of her own life, as the daughter of a formerly incarcerated mother. As she studied this case, a system came into focus in which widespread racial injustice forms the core of America's addiction to incarceration. Moved by Sharanda's plight, Brittany set to work to gain her freedom. This had never been the plan. Bright and ambitious, Brittany was a successful accountant on her way to a high-powered future in corporate law. But Sharanda's case opened the door to a harrowing journey through the criminal justice system. By day she moved billion-dollar deals, and by night she worked pro bono to free clients in near hopeless legal battles. Ultimately, her path transformed her understanding of injustice in the courts, of genius languishing behind bars, and the very definition of freedom itself. Brittany's riveting memoir is at once a coming-of-age story and a powerful evocation of what it takes to bring hope and justice to a system built to resist them both. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY KIRKUS REVIEWS

Over the past few years, public attention focused on the Jian Ghomeshi trial, the failings of Judge Greg Lenehan in the Halifax taxi driver case, and the judicial disciplinary proceedings against former Justice Robin Camp have placed the sexual assault trial process under significant scrutiny. Less than one percent of the sexual assaults that occur each year in Canada result in legal sanction for those who commit these offences. Survivors often distrust and fear the criminal justice process, and as a result, over ninety percent of sexual assaults go unreported.

Unfortunately, their fears are well founded. In this thorough evaluation of the legal culture and courtroom practices prevalent in sexual assault prosecutions, Elaine Craig provides an even-handed account of the ways in which the legal profession unnecessarily – and sometimes unlawfully – contributes to the trauma and re-victimization experienced by those who testify as sexual assault complainants. Gathering conclusive evidence from interviews with experienced lawyers across Canada, reported case law, lawyer memoirs, recent trial transcripts, and defence lawyers' public statements and commercial advertisements, *Putting Trials on Trial* demonstrates that – despite prominent contestations – complainants are regularly subjected to abusive,

humiliating, and discriminatory treatment when they turn to the law to respond to sexual violations. In pursuit of trial practices that are less harmful to sexual assault complainants as well as survivors of sexual violence more broadly, Putting Trials on Trial makes serious, substantiated, and necessary claims about the ethical and cultural failures of the Canadian legal profession. Learning Criminal Procedure: Investigations teaches students the law that governs the investigation of criminal cases. The book presents the legal rules directly in plain language. Each topic includes a clear, straightforward description of the binding legal rules, illustrations of how the rules are applied using examples and summaries of cases, and longer excerpts of the leading Supreme Court cases. The book highlights evolving or ambiguous areas of the law, and provides scores of review questions so that students can test their mastery of each issue. The book's authors build on their combined decades of practical experience to explain the law in plain language and explore the policy justifications behind the rules.

Review: "In this concise and lucid book, Daniel J. Solove offers a comprehensive overview of the difficulties involved in discussions of privacy and ultimately provides a provocative resolution. He argues that no single definition can be workable, but rather that there are multiple forms of privacy, related to one another by family resemblances. His theory bridges cultural differences and addresses historical changes in views on privacy. Drawing on a broad array of interdisciplinary sources, Solove sets forth a framework for understanding privacy that provides clear, practical guidance for engaging with relevant issues."--Jacket

This work is a wide-ranging and sensitive examination of the lived experience of intimate stalking victimization. It explores how it feels and what it means to be stalked by a former intimate and how this situation creates dilemmas for victims and their advocates. What is it like to try to become a "victim" in the eyes of the law and then to remain one, when almost anything a woman does to manage the violent emotions of an ex-husband or ex-boyfriend can backfire and discredit her claims? The author draws upon a broad array of rich data, including a survey of college women, courtroom testimony, prosecutors' case files, interviews with victims and observations in a prosecutor's office and a stalking survivor's support group to illustrate the difficulties women face as they work to cope with danger - and to negotiate the hazardous terrain of legal systems - simultaneously. For some victims, Dunn shows, prosecution processes are more traumatic than the events that brought them to seek legal help and her analysis of the historical, cultural and gendered frameworks in which stalking victimization and prosecution takes place accounts for the additional trauma. Definitions of situations and identities are contested rather than given in these arenas where lives and self-concepts rest in the balance. The ways in which we socially construct and confer meaning upon intimate violence and its victims profoundly shape what happens to ordinary women facing extraordinary circumstances. "Courting Disaster" illuminates what we can learn from their experience, whether we are working in these arenas or theorizing about how they do, and sometimes do not, work.

Criminal Litigation offers a comprehensive and practical guide to the subject. Using realistic case studies and online resources, students are encouraged to focus on putting their understanding into a practical context. This national bestseller from the Pulitzer Prize-winner catapults readers to the dark side of the justice system with the powerful true story of one man's battle to prove his innocence. Besieged by murder, rape, and the vilest conspiracies, the all-American town of Bakersfield, California, found its saviors in a band of bold and savvy prosecutors who stepped in to create one of the toughest anti-crime communities in the nation. There was only one problem: many of those who were arrested, tried, and imprisoned were innocent citizens. In a work as taut and exciting as a suspense novel, Pulitzer Prize-winning author and journalist Edward Humes embarks on a chilling journey to the dark side of the justice system. He reveals the powerful true story of retired high-school principal Pat Dunn's battle to prove his innocence, and how he was the victim of a case tainted by hidden witnesses, concealed evidence, and behind-the-scenes lobbying by powerful politicians. Humes demonstrates how the mean justice dispensed in Bakersfield is part of a growing national trend in which innocence has become the unintended casualty of today's war on crime.

Early twentieth-century African American men in northern urban centers like New York faced economic isolation, segregation, a biased criminal justice system, and overt racial attacks by police and citizens. In this book, Douglas J. Flowe interrogates the meaning of crime and violence in the lives of these men, whose lawful conduct itself was often surveilled and criminalized, by focusing on what their actions and behaviors represented to them. He narrates the stories of men who sought profits in underground markets, protected themselves when law enforcement failed to do so, and exerted control over public, commercial, and domestic spaces through force in a city that denied their claims to citizenship and manhood. Flowe furthermore traces how the features of urban Jim Crow and the efforts of civic and progressive leaders to restrict their autonomy ultimately produced the circumstances under which illegality became a form of resistance. Drawing from voluminous prison and arrest records, trial transcripts, personal letters and documents, and investigative reports, Flowe opens up new ways of understanding the black struggle for freedom in the twentieth century. By uncovering the relationship between the fight for civil rights, black constructions of masculinity, and lawlessness, he offers a stirring account of how working-class black men employed extralegal methods to address racial injustice.

A super-charged, exquisitely suspenseful novel about a vicious triple murder and the man condemned to die for it Rommy "Squirrel" Gandolph is a Yellow Man, an inmate on death row for a 1991 triple murder in Kindle County. His slow progress toward certain execution is nearing completion when Arthur Raven, a corporate lawyer who is Rommy's reluctant court-appointed representative, receives word that another inmate may have new evidence that will exonerate Gandolph. Arthur's opponent in the case is Muriel Wynn, Kindle County's formidable chief deputy prosecuting attorney, who is considering a run for her boss's job. Muriel and Larry Starczek, the original detective on the case, don't want to see Rommy escape a fate they long ago determined he deserved, for a host of reasons. Further complicating the situation is the fact that Gillian Sullivan, the judge who originally found Rommy guilty, is only recently out of prison herself, having served time for taking bribes. Scott Turow's *Reversible Errors* compelling, multi-dimensional characters take the reader into Kindle County's parallel yet intersecting worlds of police and small-time crooks, airline executives and sophisticated scammers--and lawyers of all stripes. No other writer offers such a convincing true-to-life picture of how the law and life interact, or such a profound understanding of what is at stake--personally, professionally, and morally--when the state holds the power to end a man's life.
