"This book will seem fresh to new readers for decades to come." —Kirkus Reviews (starred review) Family secrets turn deadly in this edgy page-turner about the insidious limits of labels and the ties that bind just a little too tightly, from the New York Times bestselling author of the Chronicles of Vladimir Tod. Growing up, Adrien and his sister, Grace, competed viciously for everything. It wasn't easy being the adopted sibling, but Adrien tried to get along; it was Grace who didn't want anything to do with him. When their scientist parents died in a terrible lab fire, there was nothing left to hold them together. Now, after years apart, Adrien and Grace are forced to reunite at the elite boarding school where their parents were teachers. Being back around everyone he used to know makes Adrien question the person he's become, while being back around Grace makes him feel like someone he doesn't want to be. For as much as Adrien wants to move on, someone seems determined to reopen old wounds. And when Adrien starts to suspect that Grace knows more about their parents' deaths than she let on, he realizes there are some wounds no amount of time can heal. If Adrien isn't careful, they may even kill him.

Part Hitchcock, part Hinton, this first-ever stand-alone novel from Heather Brewer, New York Times bestselling author of the acclaimed Chronicles of Vladimir Tod series, uses classic horror elements to tell a darkly funny coming-of-age story about the dangerous power of belief and the cost of blind loyalty that Kirkus Reviews called "a slick, spooky, chilling mystery." When Stephen's dad says they're moving, Stephen knows it's pointless to argue. They're broke from paying Mom's hospital bills, and now the only option left is to live with Stephen's grandmother in Spencer, a backward small town that's like something out of The Twilight Zone. Population: 814. Stephen's summer starts looking up when he meets punk girl Cara and her charismatic twin brother, Devon. With Cara, he feels safe and understood—and yeah, okay, she's totally hot. In Devon and his group, he sees a chance at making real friends. Only, as the summer presses on, and harmless nights hanging out in the cemetery take a darker turn, Stephen starts to suspect that Devon is less a friend than a leader. And he might be leading them to a very sinister end. . . .

A special 75th anniversary edition of Richard Wright's powerful and unforgettable memoir, with a new foreword by John Edgar Wideman and an afterword by Malcolm Wright, the author's grandson. When it exploded onto the literary scene in 1945, *Black Boy* was both praised and condemned. Orville Prescott of the *New York Times* wrote that "if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy." Yet from 1975 to 1978, *Black Boy* was banned in schools throughout the United States for "obscenity" and "instigating hatred between the races." Wright's once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a Black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him—whites indifferent, pitying, or cruel and Blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he may his way north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of *Black Boy*, Wright sits poised with pencil in hand, determined to "hurl words into this darkness and wait for an echo." Seventy-five year later, his words continue to reverberate. "To read *Black Boy* is to stare into the heart of darkness," John Edgar Wideman writes in his foreword. "Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear." One of the great American memoirs, Wright's account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time. Having uncovered the dark secret of her enigmatic classmate, Edward Cullen, Bella Swan embraces her feelings for him, trusting Edward to keep her safe despite the risks. But they'll have Claire's back when the town's deepest secrets come crawling out, hungry for fresh blood. Watch a Windows Media trailer for this book.

After passing the test and gaining the title of a real wizard, Dayven's entire life is changed as his beliefs in never altering people's true destinies and his relationships with his most devoted friends are challenged.

Eighth grade is set to be a good year for Diggy Lawson: He's chosen a great calf to compete at the Minnesota State Fair, he'll see a lot of July, the girl he secretly likes at 4-H, and he and his dad Pop have big plans for April Fool's Day. But everything changes when classmate Wayne Graf's mother dies, which brings to light the secret that Pop is Wayne's father, too. Suddenly, Diggy has a half brother, who moves in and messes up his life. Wayne threatens Diggy's chances at the State Fair, horns in on his girl, and rattles his easy relationship with Pop. What started out great quickly turns into the worst year ever, filled with jealousy, fighting, and several incidents involving cow poop. But as the boys care for their steers, pull pranks, and watch too many B movies, they learn what it means to be brothers and change their concept of family as they slowly steer toward a new kind of normal. Praise for *Steering Toward Normal* "First-time author Petruck's account of country life is never dull as she depicts the strong work ethic of cattlemen and women, along with the universal conflicts between siblings."

--Publishers Weekly "The plot is full of pranks and humorous situations but at its heart, it is a story about navigating the complicated and sometimes unexpected dynamics that come with being part of a family. Petruck captures the setting of rural Minnesota well, creating a small town where it seems like nearly everyone is related or at the very least always knows everyone else's business." --VOYA Magazine "In Petruck's capable hands, raising a steer—caring for it, loving it, and eventually letting it go—becomes a keen metaphor for the loss of a loved one. Diggy is a perceptive narrator, but not unusually so for his age, and it's reassuring to see him sort out his tangled feelings." --Booklist Will didn't plan to eat a stinkbug. But when his friend Darryl called new kid Eloy Herrera a racial slur, Will did it as a diversion. Now Will is Bug Boy, and everyone is cracking up inventing insect meals for him, like French flies and maggot-aroni and fleas. Turns out eating bugs for food is a real thing, called entomophagy. Deciding that means he can use a class project to feed everyone grasshoppers, Will bargains for Eloy's help in exchange for helping him with wrestling, but their growing friendship only ticks off Darryl more. Will may have bitten off more than he can chew as crickets, earthworm jerky—even a scorpion—end up on his plate, but insects are the least of his problems. When things with Darryl and Eloy heat up, Will wrestles with questions of loyalty, honor—and that maybe not all friendships are worth fighting for.
