Scott Sebastian is a liar. Fitting, since I'm a liar too. Yet there's no place for me in his glittering world of half-truths. With all our secrets in the open, I should stop trying. What I've learned should send me running far away. I can't keep pining for a man in love if I'm not the woman he's in love with. But it's not that easy to escape the Sebastians. I already knew they owned this city. Now I'll find out if they also own their son.

This manual, Field Manual FM 3-09 Field Artillery Operations April 2014, provides tactics for field artillery operations and fire support in unified land operations. The principal audience for FM 3-09 is all commanders and staffs. Commanders and staffs of Army headquarters serving as joint task force or multinational headquarters should also refer to applicable joint or multinational doctrine concerning the range of military operations and relationships with joint or multinational forces. Trainers and educators throughout the Army will also use this manual. Commanders, staffs, and subordinates ensure their decisions and actions comply with applicable United States (U.S.), international, and, in some cases, host-nation laws and regulations. Commanders at all levels ensure their Soldiers operate in accordance with the law of war and established rules of engagement. See FM 27-10. FM 3-09 implements standardization agreements (STANAG) 2484 and 3680. FM 3-09 uses joint terms where applicable. Selected joint and Army terms and definitions appear in both the glossary and the text. Terms for which FM 3-09 is the proponent publication (the authority) are marked with an asterisk (*) in the glossary and are boldfaced in the text. For other definitions shown in the text, the term is italicized and the number of the proponent publication follows the definition. FM 3-09 applies to the Regular Army, the Army National Guard of the United States, and the United States Army Reserve unless otherwise stated. This publication is intended to provide guidance for brigade, division, and corps for the employment of field artillery, and for the planning, preparation, execution, and assessment of fire support. Higher echelon planners may use it to assist in establishing fire support requirements. The manual begins by describing the capabilities of the field artillery, how it is organized, and how field artillery supports the maneuver commander through the integration of all forms of fires. Fires are the use of weapon systems to create a specific lethal or nonlethal effect on a target. This publication also provides a comprehensive discussion of fire support. This includes topics such as the role of fire support in Unified Land Operations, fire support coordination organizations and key personnel, target acquisition for fire support, and fire support attack resources. This publication also provides information on fire support in the operations process: fire support planning, preparation, execution, and assessment. This manual is a must read for combined arms leaders especially brigade and battalion commanders and staff, because it describes both field artillery and fire support as key components of successful maneuver operations. This manual describes field artillery and fire support as key components of successful maneuver operations. It begins by describing the capabilities of the Field Artillery, how it is organized, and how field artillery supports the maneuver commander through the integration of all forms of fires. The discussion provides a comprehensive discussion of fire support coordination; target acquisition; fire support attack resources, and fire support planning, preparation, execution and assessment-fire support in the operations process.

Bridging the foundations and practice of constructive mathematics, this text focusses on the contrast between the theoretical developments - which have been most useful for computer science - and more specific efforts on constructive analysis, algebra and topology.

This work facilitates the cross-use terms from the various contributing sub-areas of information science. With definitions of 1,000 terms, in alphabetical order, the volume provides a unified, integrated and concise guide to the field. Each term is annotated by one or more references to the literature. Where possible, the first reference directs the user to a basic or seminal discussion of the term and subsequent references show its usage in an information science-related application. This work will be an indispensable reference for students, researchers, and professionals.

Environmental gerontology – the research on aging and environment – evolved during the late 1960s, when the domain became a relevant topic due to societal concerns with the problems of housing for elderly people. The field proliferated during the 1970s and 1980s, and remains viable and active today on an international scale. However, in recent times, the viability of the field and its future has been brought into question. In this volume, international experts across diverse areas reflect on the current progress of their respective disciplines, illustrating research-grounded benefits emerging from their work, and suggesting new agenda that can guide progress in the future. The contributors address a wide range of issues, including: evaluation of existing paradigms and new theories that might advance both research and training; issues and applications in methods, measures, and empirically-generated research agenda; innovative approaches to environmental transformations in home, community, and long-term care settings; and understudied populations and issues in environmental gerontology. This book was originally published as a special issue of the Journal of Housing for the Elderly.

This fully updated edition of Field Guide to Wild Flowers of South Africa covers more than 1,100 species of flora, focusing on the most common, conspicuous and 'showy' plants around the region. An informative introduction discusses plant diversity, vegetation types, and includes a key to identifying plant groups. The species descriptions follow and each is accompanied by: a vivid photograph; a distribution map showing range, and an indication of the plant's flowering season. This invaluable, up-to-date guide provides the tools and information needed to identify flowering plants across South Africa. Written by an expert in the field; fully updated edition; facilitates identification of wild flowers around South Africa; glorious full-colour photographs of each species; key to plant families for easy ID.

It's a summer internship. Never mind that the owners are hot. Never mind that there are three of them. Never mind that they are twice her age. Never mind that they have a secret "play" room in the basement. Never mind that she's never been more intrigued in her life. She only has three months. No matter how deeply she gets involved, she can't stay...

This comprehensive book contains illustrations and photographs of artifacts, sites, and digs in progress and surveys the most important archeological sites, described in lay terms.

When Brianna Donahue was three years old, her mother mysteriously disappeared while farming in Merriwell Bay, Western Australia. Her body has never been found. Brianna works the same land with her father Russell, while almost single-handedly raising her two children as her husband Caleb works as a fly-in fly-out criminal lawyer in Perth. One scorching summer's morning, her son Trent goes missing and, while frantically searching for him, Brianna must come to terms with the fact that her marriage has large cracks in it. Over two thousand kilometres away in South Australia, Detective Dave Burrows receives a phone call reporting stolen sheep from an elderly farmer. When he and his partner Jack arrive at the farm, it's clear that Guy has early signs of dementia. Following a conversation with his wife Kim, Dave becomes intrigued with Guy's family history. Was there a sister, or was there not? No one seems to know. So how will Dave's investigation impact Brianna's world? While battling the threat of bushfires back in Merriwell Bay, Brianna is faced with challenges that test her relationships with those she loves most. Suspenseful and incendiary, *Suddenly One Summer* is an intriguing and heartfelt story of the unlikely connections of life on the land.

This book reminds students in junior, senior and graduate level courses in physics, chemistry and engineering of the math they may have forgotten (or learned imperfectly) that is needed to succeed in science courses. The focus is on math actually used in physics, chemistry, and engineering, and the approach to mathematics begins with 12 examples of increasing complexity, designed to hone the student's ability to think in mathematical terms and to apply quantitative methods to scientific problems. Detailed illustrations and links to reference material online help further comprehension. The second edition features new problems and illustrations and features expanded chapters on matrix algebra and differential equations. Use of proven pedagogical techniques developed during the author's 40 years of teaching experience New practice problems and exercises to enhance comprehension Coverage of fairly advanced topics, including vector and matrix algebra, partial differential equations, special functions and complex variables

'Blew my mind... so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book... I loved every moment of it... immersive, heart-wrenching, I feel emotional writing this review.' Goodreads reviewer, 5 stars *Wanted: Company Daughters*. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as *Company Daughters*: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. With fear in their hearts, the girls begin their journey – but what awaits them on the other side of the world is nothing like what they've been promised... Based on true history, this is a gripping and unputdownable historical novel, perfect for fans of *Girl with a Pearl Earring*, *The Miniaturist* and *The Indigo Girl*. WINNER OF THE 2021 GOLDEN CROWN LITERARY SOCIETY AWARD FOR DEBUT FICTION. FINALIST FOR THE 2021 BISEXUAL BOOK AWARDS. LONGLISTED FOR THE 2021 HWA DEBUT CROWN AWARD. What readers are saying about *The Company Daughters*: 'Blew my mind... a book I've told so many people about purely because I'm still in disbelief that it exists, that it's so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book of a woman's struggle to survive... I loved every moment of it. Breathlessly, and in a way that took up my entire brain... immersive, heart-wrenching, and I feel emotional writing this review.' Goodreads reviewer, 5

stars 'From the moment I started reading The Company Daughters, I was captivated by this historical tale. Although it does contain a love story, it's not a romance...This was a gripping read.' Goodreads reviewer 'This book is so stunningly tender and beautiful, all mixed in with some seriously tragic and heart-wrenching events... Rajaram is an extremely skilled writer, and I love her writing style... The themes of sisterhood and female love were so present in this book and I found it very moving.' Goodreads reviewer 'I was enchanted by this book! It's a delightful read that will have your emotions all over the place.' Goodreads reviewer 'I love historical fiction, and this book touched on a topic and time I knew nearly nothing about...There's love, there's loss, there's surviving, there's thriving... It was a very beautiful book.' Goodreads reviewer 'The Company Daughters is a beautifully written love story... a perfect example of the power of human will and the endurance and hope that love can give a person.' Goodreads reviewer, 5 stars 'This book has a beauty and grace to it. The author's writing just flows off the page, and although there are struggles and upsets by the time you close the book over you are filled with a warm glow.' Goodreads reviewer 'A powerful and insightful read. I look forward to reading more historical work by Samantha Rajaram!' Goodreads reviewer 'Heartbreaking... a moving book... vivid, with amazing characters... This is a great read.' Goodreads reviewer

She's running for her life. He's the safe haven she never expected to find. The holiday season is about to get HOT. Hiding out for the holiday season in the heart of the South? Not something that Haley Quick ever expected to have on her to-do list but then...she never expected her ex to want her dead, either. Turns out, life is full of surprises. Time to deal. Haley has ditched New York for a crazy little dot on the map known as Point Hope, Alabama. It's a town gone extra crazy for the holidays, and Haley is sticking out like a sore thumb with her very much Grinch-self. But enter sexy sheriff Spencer Lane...Tall, muscled, and made with an extra dose of sex appeal, he is exactly the kind of man that Haley should be avoiding. He's charming, he looks way too good in a Santa hat, and, oh, yes, he's her new landlord. The hits just keep coming. She can't afford to let Spencer learn all of her secrets, a tough job since she is living with the man. No sex, though. It's purely a business relationship. Except...the holidays in the South sure do get HOT. Or maybe that's just sexy Spencer. Usually, Haley falls for the bad guy. It's the whole reason she's running for her life. She can't help but wonder...What would it be like to fall for a man like Spencer? He just got his Christmas wish. Sheriff Spencer Lane can't believe his luck. The most beautiful, fascinating woman he's ever seen has just dropped into his life like a gift from, well, the big guy in red. Only the problem is that Haley seems to think Spencer is some by-the-book, nice guy. Probably because of the badge. And if she wants him to be the hero, that's a role that he's happy to play for her. But the truth is, Spencer has plenty of darkness inside, too. An ex Navy SEAL, he knows how to get sh—um, stuff done. He also knows how to be very, very naughty. When danger threatens his Haley, all bets are off. No one is going to hurt her. No one is going to threaten her. Not in his town. Not on his watch. The nice guy will show Haley just how bad he can be. Fake snow, a parade of wild elves, and a stalker ex don't make for the merriest of times, but in Point Hope, anything can happen—and it usually does. Ready for a steamy story that will get you in the ho-ho-ho spirit? Settle back, curl up with Spencer, and have yourself a jolly old time.

"Po, an oversized panda with even bigger dreams, works in his father's noodle shop. But when a twist of fate sets him on course to become the mighty Dragon Warrior, Po isn't sure he can succeed--and neither is anyone else"--Amazon.com.

We live in a reactionary culture where divisive issues arise, people on either side throw stones, and everyone ends up more entrenched in their opinions than in reaching common ground--or even exhibiting common courtesy! If there ever was a time for Christians to understand and communicate God's truth about controversial and polarizing issues, it is now. Believers must develop convictions based on research, reason, and biblical truth--and be able (and willing) to communicate these convictions with a love and respect that reflects God's own heart. In Culture Shock, bestselling author, pastor, and radio personality Chip Ingram shows readers how they can bring light rather than heat to the most controversial and divisive issues of our day. Covering topics such as right and wrong, sex, homosexuality, abortion, politics, and the environment, Culture Shock is every engaged believer's must-have guidebook to replacing reactionary hate with revolutionary love.

With a shift toward problem-based learning and critical thinking in many health science fields, professional pharmacy training faces a shift in focus as well. Although the Accreditation Council for Pharmacy Education (ACPE) has recently suggested guidelines for problem solving to be better integrated into pharmacy curriculum, pharmacy books currently available either address this material inadequately or lack it completely. Theory and Practice of Contemporary Pharmaceutics addresses this problem by challenging pharmacy students to think critically in preparation for situations that arise in clinical practice. This book offers a wealth of up-to-date information, organized in a logical sequence, corresponding to the art and science required for formulators in industry and dispensing pharmacists in the community. It breaks down the subject to its simplest form and includes numerous examples, case studies, and problems. In addition to presenting basic scientific principles, each chapter includes a self-evaluation tutorial designed to help

you evaluate your understanding of the subject matter, numerical problems that provide practice in finding mathematical solutions, and case studies that measure your overall grasp of the subject matter by challenging you to craft a plausible solution to a real-life scenario using the concepts presented in that chapter. Written by authors selected from academia, industry, and regulatory agencies, the book presents an objective and balanced view of pharmaceutical science and its application. The authors' insights are extremely helpful to pharmacy students as well as practicing pharmacists involved in the development and/or dispensation of existing and new generation biotechnology-based drug products. This simplified and user-friendly book will present pharmaceuticals in a way that it has never been presented before and will help prepare students and pharmacists for the competitive and challenging nature of the professional market.

Death is a way of life outside of the safety of Inner Tulsa, and Jade means to keep flipping Mother Nature off until old age claims her. With one eye always on the sky, the last thing she needs is a pack of bounty hunters out for her living head. With no idea of why anyone would want her, her wits might keep her free, assuming she can resist the charming lures of Sandro, one of the men out to claim her as his own. Left with the choice of being the evening snack of a tornado or taking shelter with the bounty hunter, she does what she does best: she lives on the edge. Striking a bargain with the handsome bounty hunter buys her another day of life, but it also dumps her into the heart of a sinister plot, one meant to enslave the residents of the storm-tossed city—and the others brave and foolish enough to call the Alley home.

Travis King is the worst kind of asshole. He taunts me for being a good girl and mocks my high standards. He's cruel, crass, and has enough confidence to last two lifetimes. And I hate him. It wouldn't matter so much if he were avoidable. But considering he's my older brother's best friend and roommate, I see him more than I'd ever want to. His sculpted abs and gorgeous eyes are wasted on such an arrogant man, which makes me hate him even more. Even though I've had a crush on him since I was ten, the feelings weren't mutual and he's always made that very clear. He's always loved getting under my skin and one night against my better judgment, I let him in my bed. I've succumbed to his manwhore ways, but that doesn't change a thing. Because the King is about to get played at his own game—and lose. Checkmate.

I tried to protect my sister—and now I'll die because of it. In the wilderness of western France, I'm forced to work in a labor camp. It's winter. It's cold. It's miserable. There's only one good thing about this place. Magnus. He's one of the guards—and he might just be my way out of here. Because every time the wind picks up, I hear it. Ring. Ring. Ring. The bells of freedom. The bells from the Chateau. My way out of this place.

I may be a shy, lowly letter carrier, but when my beloved apartment building is threatened by a mysterious and reclusive billionaire, I'm willing to push the envelope. I'm going to march right up to Malcolm Blackberg's fortress of fierceness and deliver a cease-and-desist notice he can't refuse. Except as soon as I get inside his gilded doors, things go sideways—I'm mistaken for Malcolm's court-ordered emotional intelligence coach—they think I'm acting out a wacky postal carrier cosplay. They drag me in, a sacrificial lamb for the big bad. Make that big, smolderingly sexy bad. So I make up a lesson involving a story about our building. He doesn't seem happy. Can he tell that I have no idea what I'm doing? Before I know it I'm flying around the country, up close and personality testing the most devilishly exasperating man I've ever met. He's scary for sure...but the way he sometimes looks at me turns my knees to jelly, and has me writing love letters to his gorgeous eyes, his mouthwatering smile, his impressive...package. Our coaching sessions are getting hot-hot-hot, but I can't let my guard down. If he ever finds out I'm a first-class fake, I'll lose everything I've ever loved in this world! *** **The stand-alone romcoms in this series can be read in any order!** Book 1. A collection of the year's best mystery short fiction selected by New York Times best-selling and Edgar Award-winning author C. J. Box. C. J. Box, #1 New York Times best-selling author of the hugely popular Joe Pickett series, selects the best short mystery and crime fiction of the year in this annual "treat for crime-fiction fans" (Library Journal). A divorced criminal lawyer. Her first love. The island she abandoned for a better life over twenty years ago. Susan Sheridan knows Martha's Vineyard like the back of her hand. She grew up there as the eldest of the three Sheridan Sisters, their father the longtime owner of the Sunrise Cove Inn in Oak Bluffs. The Inn, the water, the sun all spun with

laughter, and love, with the most important people-- her family and friends. It was her glittering, perfect life--until it wasn't. Tragedy struck over twenty years ago, and Susan has hardly said a word to her sisters or her father or anyone else she ever loved. Not until now. Her father and Sunrise Cove Inn are both falling apart, just like Susan's life. Her husband left her for the secretary at their shared law firm, and her children have their separate lives. And she's keeping her own secrets. Now it's time to go back to the island she once loved so much. Time to face the horrors and secrets of her past, everything she's tucked away since she left the Vineyard and started a family of her own. But as she digs deeper into the dark psyche of her past, she digs up old truths, lost loves, and regrets--all with the once-familiar backdrop of this gorgeous island. The Vineyard has been waiting for her. But can she handle what she finds there? Can she forgive and never again regret? Dive into this new women's fiction series by heading to Martha's Vineyard-- a backdrop of white sand and crystal blue waters that follow the stories of the Sheridan sisters. A heartwarming journey of friendship, loss, and love that will have you wanting the next book. For fans of Pamela Kelley, Caroline Brown, Debbie Macomber, and Jan Moran.

This text provides a masterful and systematic treatment of all the basic analytic and geometric aspects of Bergman's classic theory of the kernel and its invariance properties. These include calculation, invariance properties, boundary asymptotics, and asymptotic expansion of the Bergman kernel and metric. Moreover, it presents a unique compendium of results with applications to function theory, geometry, partial differential equations, and interpretations in the language of functional analysis, with emphasis on the several complex variables context. Several of these topics appear here for the first time in book form. Each chapter includes illustrative examples and a collection of exercises which will be of interest to both graduate students and experienced mathematicians. Graduate students who have taken courses in complex variables and have a basic background in real and functional analysis will find this textbook appealing. Applicable courses for either main or supplementary usage include those in complex variables, several complex variables, complex differential geometry, and partial differential equations. Researchers in complex analysis, harmonic analysis, PDEs, and complex differential geometry will also benefit from the thorough treatment of the many exciting aspects of Bergman's theory.

The book discusses the ideas and creates a framework for building toward a theory of paleoclimate. Using the rich and mounting array of observational evidence of climatic changes from geology, geochemistry, and paleontology, Saltzman offers a dynamical approach to the theory of paleoclimate evolution and an expanded theory of climate. Saltzman was a distinguished authority on dynamical meteorology. This book provides a comprehensive framework based on dynamical system ideas for a theory of climate and paleoclimatic evolution which is intended for graduate students and research workers in paleoclimatology, earth system studies, and global change research. The book includes an extensive bibliography of geological and physical/dynamical references. Written by the late Barry Saltzman who was a distinguished authority on dynamical meteorology This book provides a comprehensive framework based on dynamical system ideas for a theory of climate and paleoclimatic evolution The book includes extensive bibliography of geological and physical/dynamical references

This guide provides the essential information on laser pulse generation, including Q switching, gain switching, mode locking, and the amplification of ultrashort pulses to high energies. Pulse characterization is also covered, along with the physical aspects and various technical limitations. This guide is designed for industry practitioners, researchers, users of pulsed and ultrafast laser systems, and anyone wanting to learn more about the potential of different pulse generation methods.

This book will be helpful for any health care professional assisting the patient with diabetes to reach their target goals. The various oral medications and their mechanisms, as well as the types and regimens of the various insulins are discussed. Reaching target goals has been shown to prevent the acute (hypoglycemia and hyperglycemia) and chronic (retinopathy, nephropathy, neuropathy, coronary heart disease and stroke) complications of diabetes. Therefore, it is critical that healthcare professionals have the knowledge to assist their patients in meeting their diabetes goals. This resourceful tool can be yours for just \$14.95. Additionally, nurses will be able to earn continuing education contact hours after reading this book.

Pop Quiz: You just banged a rock star you vowed to loathe until the end of time. What's next? Hint: You don't agree to be his fake girlfriend. And you certainly don't fall in love... Once upon a time, Cutter Comstock was the hot older boy who tormented me in high school. Fast forward thirteen years and I find myself in his bed, riding him like the last stud at the sex rodeo... Needless to say, mistakes have been made... But as a chef, I turn food flops around all the time. I can turn this around, too. All I have to do is ignore the insufferably gorgeous (and generally insufferable) Cutter until he goes on tour. Too bad my nemesis has other plans. Cutter wants my help winning back the one who got away and he knows just the bait to dangle—the chance to open my own restaurant in a dream location. I can pull off pretending to be the devil's devoted girlfriend in order to make my dreams come true. Right? But what happens when my dreams start to include the clever, funny, unexpectedly sweet man Cutter has become?
