Text and photographs introduce the history of trucks, the many varieties on the road today, and their different uses. Childhood or wildhood? This collection of stories begins with a young boy whose cleverness, ability, and determination are more in line with an adult rather than the curious-minded six year old that we are introduced to in the first story. Normal was never to be a part of Marcel Pontbriand's life. Orphaned at the tender young age of 14 and with only pennies to his name, you'll read about how he took to the ice roads of Canada and met with fear, tragedy, and obstacles that only few could even imagine. Challenge, defeat, and the curses of Mother Nature would forge the young Marcel into a focused dreamer who would plan, re-examine his situation, and promise himself a better life, all the while pledging to help others along the way. Just like the highways of Canada and the U.S.A., it's never a straight path to meet a timeline and a destination. These stories will take you on an adventure of one man's life that was intertwined with controversy, crime, and corruption. It's been a truckin' hard life for Marcel Pontbriand, a life that he would not change in the least, because it molded him into what he became to be called; Cowboy of the Road He has driven more than 5 million miles behind the wheel of his Peterbilt rig. So, let us begin this incredible collection of true tales right now!

In July 1917 Ford Motor Company introduced a one-ton chassis for commercial trucks, marking what many historians feel was its official entry into the dedicated truck business. Prior to this the company had offered commercial cars, including depot hacks and delivery van bodies mounted on its standard passenger car chassis. Dealers had also offered small after-market pickup beds that could be placed on the rear of a Model T car to convert it to a pickup. But with the debut of the rugged Model TT truck chassis, Ford was firmly in the truck market. Eight years later it introduced its first factory-produced pickup, a sturdy half-ton job that met with great acceptance. During the century that has passed since that first Ford truck chassis, the F-series has become the best-selling truck in the world, and the best-selling vehicle of any type in America. Every year the company sells over 700,000 F-series trucks, and well over 1.5 million trucks of all types, just in the U.S. It's an amazing success.
