

## Going Long Training For Triathlon S Ultimate Challenge

Are you ready to take your triathlon training to the next level with cutting-edge research and science? Triathlon Training with Power is the first book written to help athletes integrate power training into all three sports of triathlon. This book will introduce you to power training principles and their applications, developed by leaders in the endurance industry, can help you achieve peak performance. While the application of power training principles has been a mainstay for cycling training for some time, authors and master coaches Dr. Chris Myers and Hunter Allen expand this powerful methodology to apply to swimming and running. You'll learn how to develop an effective, revolutionary training program using the power training principles and methodology. You'll explore sample training plans across the multisport spectrum to help you create a personalized training regimen to maximize your ability and give you a competitive edge. Triathlon Training with Power provides you with an innovative, research-based tool to transform the way you think about triathlon training and elevate your personal performance. The Triathlon Training Book is your one-stop reference for training and competing in a triathlon. Find all the essentials you need to start training and improve your performance: + Clear, customizable training plans for all triathlon distances. + Step-by-step exercises to build your strength. + Incredible illustrations that explain efficiency and speed. + Expert advice on race-day strategy, nutrition, and equipment. + Trustworthy advice on treating common triathlon injuries and maintaining a healthy body. Whether you are a first-timer or a seasoned Ironman veteran, you'll find what you need in The Triathlon Training Book. There's even a special performance chapter with detailed anatomical artwork that explains the physiology and body mechanics for swimming, cycling, and running, so you can see what's happening inside your body as you train.

Coach Joe Friel is the most trusted name in endurance sports coaching, and his Cyclist's Training Bible is the most comprehensive and reliable training resource ever written for cyclists. This new edition of the bestselling book includes all of the latest advances in training and technology. Using this book, cyclists can create a comprehensive, self-coached training plan that is both scientifically proven and shaped around their personal goals. Friel empowers athletes with every detail they need to consider when planning a season, lining up a week of workouts, or preparing to race. This fourth edition includes extensive revisions on the specifics of how to train and what to eat. Friel explains how cyclists can: best gauge intensity with power meters and other new training technology to maximize form and fitness and reduce fatigue; more knowledgeably and accurately make changes to their annual training plan over the course of a season; dramatically build muscular endurance with strength training; improve body composition and recovery with smarter nutrition. With more case studies to draw from and multiple contingency plans for those times when training doesn't progress as planned, The Cyclist's Training Bible continues to be the definitive guide to optimal cycling performance.

The Complete Book of Triathlon Training is for all athletes who want to improve in or convert to the fascinating sport of triathlon. It shows among other things how to construct a training program, how to approach a competition and offers an Encyclopedia that covers all aspects of triathlon. This book shows the triathlete and aspiring triathlete everything they need to know about triathlon, whether a sporting novice or an accomplished athlete in another sport. It tells you how to get started, what equipment to buy, the diet you will need, how to devise a training routine and how to arrange your busy life in order to accommodate it, and then explains how to finish a race, as well as how to recover from it. The Complete Book of Triathlon Training will tell you how to be the best that you can be in triathlon; not necessarily by training harder, but by training smarter. Every aspect of your life has the potential to affect your mental and physical performance, and you need to take this into account when devising your training in order to avoid both over-training and under-training. Mark Kleanthous' system for monitoring training-stress levels which he has been successfully using for many years is unique to him but is revealed in this book. Use it and you can achieve your optimum performance.

This handbook provides six race-specific programs: two for sprint distances, two for Olympic distances, one for the half Ironman, and one for Ironman. Helpful details include information on equipment, basic training, nutrition, and injury recovery and prevention.

Every man an Iron Man, and every woman, too! No longer exclusive events reserved for only the most committed athletes, triathlons, duathlons (bike and run), and aquathons (swim and run) now attract hundreds of thousands of Americans. Filled with the inside tips, practical advice, and photos, this is the book for any man or woman who wants to compete in multi-sport events, regardless of experience level.

--Authors are experienced triathlon competitors and personal trainers --Tips on setting up, equipment, training, diet, and motivation --Dozens of exciting instructional photos

The Triathlete's Training Bible is the bestselling and most comprehensive guide for aspiring and experienced triathletes. Joe Friel is the most trusted coach in the world and his proven triathlon training program has helped hundreds of thousands find success in the sport of triathlon. Joe has completely rewritten this new 4th Edition of The Triathlete's Training Bible to incorporate new training principles and help athletes train smarter than ever. The Triathlete's Training Bible equips triathletes of all abilities with every detail they must consider when planning a season, lining up a week of workouts, or preparing for race day. With this new edition, Joe will guide you to develop your own personalized triathlon training program and: · become a better swimmer, cyclist, and runner · train with the right intensity and volume · gain maximum fitness from every workout · make up for missed workouts and avoid overtraining · adapt your training plan based on your progress and conflicts · build muscular endurance with a new approach to strength training · improve body composition with smarter nutrition The Triathlete's Training Bible is the best-selling book on tri training ever published. Get stronger, smarter, and faster with this newest version of the bible of the sport. What's New in the Fourth Edition of The Triathlete's Training Bible? Coach Joe Friel started writing the fourth edition of The Triathlete's Training Bible with a blank page: the entire book is new. The science and sport of triathlon have changed much since the previous edition released. This new edition adds emphasis to personalizing training plans, incorporates new power meter techniques for cycling and running, improves on the skill development techniques, updates the strength training approach, speeds recovery for busy

athletes, and cuts through the noisy volume of training data to focus athletes on the numbers that mean the most to better performance. See Joe Friel's blog or VeloPress for an expanded summary of improvements to this fourth edition.

Ever dream of being an elite endurance athlete and competing in races like Hawaii's Ironman? Professional athletes are not the only people who have the ability to attain superior athletic accomplishments. Every season tens of thousands of amateur triathletes compete head-to-head, pushing their physical and mental strength to the absolute limits. The standard Ironman competition is a true test: a 2.4-mile open-water swim, followed by a 112-mile bike leg, and a 26.2-mile marathon run. Sought-after multisport coach, Don Fink assures readers that the challenge is not too difficult, the dream is not impossible. His time-efficient training methods have been honed over the years and have been proved to aid anyone in achieving their athletic dreams. Be Iron-Fit provides practical training information in a step-by-step, enjoyable way so that even everyday athletes can attain ultimate conditioning. Included in this revolutionary guide is information on: - The essential workouts - The training cycle- Core training - 12-week training programs - Effective time management - The principle of gradual adaptation - Effective heart-rate training - Preparing with training races - Proper technique - Equipment tips - Race and pre-race strategies - Mental training - Effective goal setting and race selection- Nutrition - And much more With the proper preparation and training techniques explained here, virtually anyone can attain supreme fitness.

Get ready for your first triathlon with the sport's #1 coach! Triathlon is the hottest new fitness challenge. Each triathlon training schedule includes realistic swimming, biking, and running workouts with options to add strength workouts. These simple plans will build anyone into a triathlete. Friel simplifies your triathlon race day with smart tips to navigate your race packet pickup, set up your transition area, fuel for your race, finish your swim without stress or fear, and ensure your race goes smoothly from the moment you wake up until you cross the finish line. Triathlon is a fun and challenging sport that can help you get fit, healthy, and feeling great. Your First Triathlon will help you get off to a great start in the swim-bike-run sport.

Keeping a training diary helps athletes build confidence and stave off threats to performance: burnout, injury, illness, and overtraining. This simple, comprehensive diary makes it easy to record every component of triathlon workouts. Details of each swim, bike, run, crosstraining, or strength workout can be entered, with ample space for notes on the route or other variables. Users can consolidate training data, track progress, and reshape goals throughout the season with this useful book.

You Are a Badass for aspiring triathletes: a practical and inspiring guide to getting off the couch and on the trail to race your first -- or 50th -- triathlon When Meredith Atwood first shared her journey from tired, overworked wife and mom to successful triathlete, her story resonated with women everywhere, online at SwimBikeMom.com and in the first edition of Triathlon for the Every Woman. Now with her own IRONMAN finishes, experience, and triathlon coaching expertise, Meredith is back with even more wisdom. In this fully revised edition, Atwood not only shares how she went from the couch to an IRONMAN 70.3 triathlon in just over a year, but also shares the latest expertise from coaches, nutritionists, and athletes on each component of the triathlon: swimming, biking, and running. With compact training plans, the most current nutrition advice, updated resources, and the latest information on long-distance racing, this new edition has all you need to make your triathlon goals a reality.

Fast After 50 is for every endurance athlete who wants to stay fast for years to come. For runners, cyclists, triathletes, swimmers, and cross-country skiers, getting older doesn't have to mean getting slower. Drawing from the most current research on aging and sports performance, Joe Friel—America's leading endurance sports coach—shows how athletes can race strong and stay healthy

well past age 50. In his groundbreaking book *Fast After 50*, Friel offers a smart approach for athletes to ward off the effects of age. Friel shows athletes how to extend their racing careers for decades—and race to win. *Fast After 50* presents guidelines for high-intensity workouts, focused strength training, recovery, crosstraining, and nutrition for high performance: How the body's response to training changes with age, how to adapt your training plan, and how to avoid overtraining How to shed body fat and regain muscle density How to create a progressive plan for training, rest, recovery, and competition Workout guidelines, field tests, and intensity measurement In *Fast After 50*, Joe Friel shows athletes that age is just a number—and race results are the only numbers that count. With contributions from: Mark Allen, Gale Bernhardt, Amby Burfoot, Dr. Larry Creswell, John Howard, Dr. Tim Noakes, Ned Overend, Dr. John Post, Dr. Andrew Pruitt, and Lisa Rainsberger.

The *Triathlete's Training Bible* is the bestselling and most comprehensive reference available to triathletes. Based on Joe Friel's proven, science-based methodology and his 28 years of coaching experience, *The Triathlete's Training Bible* has equipped hundreds of thousands of triathletes for success in the sport. The *Triathlete's Training Bible* equips triathletes of all abilities with every detail they must consider when planning a season, lining up a week of workouts, or preparing for race day. With this new edition, you will develop your own personalized training plan and learn how to: improve economy in swimming, cycling, and running balance intensity and volume gain maximum fitness through smart recovery make up for missed workouts and avoid overtraining adapt your training plan based on your progress build muscular endurance with a new approach to strength training improve body composition with smarter nutrition *The Triathlete's Training Bible* is the best-selling book on tri training ever published. Get stronger, smarter, and faster with this newest version of the bible of the sport.

In *The Well-Built Triathlete*, elite triathlon coach Matt Dixon reveals the approach he has used to turn age-group triathletes into elite professionals and champions. Dixon's method breaks new ground in triathlon training, introducing a new, comprehensive approach that builds the whole athlete for stronger performance. Dixon details the four pillars of performance that form the foundation of his highly successful purplepatch fitness program, showing triathletes of all abilities how they can become well-built triathletes and perform better year after year. *The Well-Built Triathlete* does not focus narrowly on workouts and training, but instead gives equal weight to training and workouts, recovery and rest, workout and daily nutrition, and functional strength and mobility. Dixon considers the demands of career and family to prepare athletes to achieve their goals through a realistic, practical ecosystem of stress and recovery. *The Well-Built Triathlete* is Dixon's guide to every aspect of triathlon performance. Chapters on swimming, cycling, and running explain the most effective ways to train for each. His pragmatic approach to stretching, recovery, and effective strength training shows athletes where they can recover valuable time. A purplepatch section shows how triathletes can achieve long streaks of high performance. Dixon's whole-athlete approach to triathlon will help triathletes become greater than the sum of their workouts. By becoming better all-around athletes, well-built triathletes will train and race faster than ever.

Triathlons are more popular today than ever before, but for many the idea of training for a triathlon can seem daunting. In this completely updated, revised edition, triathlon champion Eric Harr shows you how to eat healthfully and effectively train for a triathlon in just 4 hours a week over the course of 6 weeks. *Triathlon Training in Four Hours a Week* includes four separate training programs to accommodate every fitness level; a comprehensive gear guide; a complete menu plan including nutritional options for vegan, paleo, and gluten-free athletes; strategies to stay motivated; and a guide to race day. With clear, concise language and easy-to-follow, step-by-step photography, *Triathlon Training in 4 Hours a Week* is the ultimate resource for time-crunched would-be triathletes looking to reap the rewards of this challenging sport.

Whether you are a beginner or a seasoned triathlete, training for a Sprint, Olympic, Half-Ironman, or Ironman event, this book offers a complete, step-by-step program that will help you strengthen, tone-up, and both physically and mentally prepare for the Go the distance--a triathlon training guide for athletes Maybe you love to run, swam competitively in high school, or enjoy riding your bike. Perhaps you're looking for a fun, new athletic challenge? Whatever the case is, you're in the right place. *Athlete to Triathlete* delivers the ultimate triathlon training plan for Sprint and Olympic races to help you gain the fitness and confidence to complete your first race--and enjoy doing it. Transition from a single to a multisport athlete with advice on everything from injury prevention and mental fitness to pro tips for mastering each sport. The up-to-date information and expert guidance make your training journey and race day experience safe, fun, and memorable. This triathlon training book includes: *Triathlon 101*--All the triathlon-specific information you need to know, including helpful features like gear checklists, transition tips, and race day rules. *Training beyond the basics*--The chapters provide simple-to-understand details on training fundamentals, stretching exercises, and advice tailored to runners, cyclists, and swimmers. *12-week training plans*--Follow a detailed, day-by-day training plan for either a Sprint or Olympic distance race. When you're ready to race in your first triathlon, grab a copy of *Athlete to Triathlete* and complete the race with confidence.

From *Triathlete* magazine - the most popular and extensive source for triathlon information - comes this guidebook of weekly training plans for triathletes of all skill levels.

*Strength Training for Triathletes* offers a comprehensive strength training program for triathlon that will help triathletes build power, speed, and muscular endurance for faster racing over any race distance. Certified USA Triathlon coach and NSCA Personal Trainer of the Year Patrick Hagerman, EdD, reveals a focused, triathlon-specific strength training program that will enable triathletes to push harder during training and on the racecourse when the effort is hardest. Triathletes who master this progressive strength training program will also become more resistant to injury, meaning fewer missed workouts. *Strength Training for Triathletes* features 75 of the most effective strength training exercises for triathlon swimming, cycling, and running plus core strength and general conditioning. Full-color photographs illustrate each simple exercise, and exercises are grouped so athletes can focus on their own individual performance limiters. Hagerman simplifies the science underlying strength training, offering easy-to-follow guidelines on resistance and reps that will make triathletes stronger through every phase of the season. *Strength Training for Triathletes* develops these abilities in triathletes: More powerful, longer-lasting muscles Resistance to fatigue and injury Improved body composition with stronger, leaner muscle mass Better performance without added bulk New in this second edition are sample strength training programs for the most popular triathlon race distances and for each of triathlon's three sports, full-color photographs showing detailed body positions for each exercise, several new exercises, new indexes that specify body-weight exercises and weighted exercises, an exercise log template to track your goal weights, and a new index to improve usability. Strength training often separates the top performers in triathlon from the middle of the pack. Even small improvements in muscle strength can add up to big race results. *Strength Training for Triathletes* makes it simple for triathletes of all levels to get stronger and race faster.

\* Includes a foreword by Iron Man Hall-of-Famer Scott Tinley \* Written with a fresh, non-technical yet authoritative approach \* Provides the latest-and-greatest developments in the industry \* Author is a widely-respected athlete and coach Whether just getting interested in triathlons or a multi-sport veteran, readers of this new handbook will get tuned up and stoked to reach any performance goal! Author Terri Schneider explains how to train for a first triathlon, as well as how to formulate an ongoing experience or a longer-term race regimen. Basic techniques for building a foundation of success are accompanied by lessons in heart-rate levels and suggestions for how to integrate a training schedule into daily life. From the early stages of training and making decisions on what gear to buy through to race day and beyond, Schneider covers everything from nutritional information to endurance issues, mental strategies, stretching, setting up transition areas, off-season training, and more.

The *Triathlete's Training Bible* is the bestselling and most comprehensive guide available for aspiring and experienced triathletes. Joe Friel is

the most trusted coach in the world and his proven triathlon training program has helped hundreds of thousands find success in the sport of triathlon. 'Heads up – here's how to run like a pro' – The Times 'A fascinating book' – Adharanand Finn, author of Running With the Kenyans The Lost Art of Running is an opportunity to join running technique analyst coach and movement guru Shane Benzie on his journey across five continents as he trains with and analyses the running style of some of the most gifted athletes on the planet. 'Excellent' Trail Running magazine 'Shane is the Indiana Jones of the running world' Damian Hall, ultra marathon runner & journalist 'Running technique has to be one of the most subjective issues out there: 10 minutes' investigation on the internet will generally confuse rather than confirm what you should or should not be doing. Mother Nature gave us some amazing gifts as runners – if we rediscover them and use them, we can transform our dynamic and everyday movement.' Shane Benzie Part narrative, part practical, this adventure takes you to the foothills of Ethiopia and the 'town of runners'; to the training grounds of world record holding marathon runners in Kenya; racing across the Arctic Circle and the mountains of Europe, through the sweltering sands of the Sahara and the hostility of a winter traverse of the Pennine Way, to witness the incredible natural movement of runners in these environments. Along the way, you will learn how to incorporate natural movement techniques into your own running and hear from some of the top athletes that Shane has coached over the years. Whether experienced or just tackling your first few miles, this ground-breaking book will help you discover the lost art of running.

Much more goes into a successful strength training program than reps and load. How one thinks, breathes, eats, drinks, and sleeps has just as much impact on a person's vitality as how one moves. Indeed, failing to get the biochemistry right dooms even the best exercise prescription to failure. While most others treat the athlete as though the musculoskeletal system functions as an island. Andrew's approach is Holistic-inclusive of all key systems of the body & mind. Holistic Strength Training for Triathlon will teach the reader what is often neglected in both their pursuit of wellness and their pursuit of a place on the podium.

Endurance athletes of all ages and ability levels invest countless hours in tough rides and workouts so they can race farther and faster from year to year. Whether they work with a coach or train independently, triathletes rely on their training log to tell them when to push harder and when to back off. With all of the recent technological advancements in training, it is more important than ever to have a place to consolidate training data, track progress, reshape goals throughout the season, and, perhaps most importantly, listen to the way the body responds from day to day. Designed with collaboration from triathletes and coaches, this next generation of training diary will make it easier than ever to record and interpret every component of multisport training and is an ideal companion to Joe Friel's bestselling book The Triathlete's Training Bible but can easily be used independently for whatever training program you choose. Coach Joe Friel gives athletes a thorough introduction to the essential details of training and keeping a log. For athletes who are designing their own annual training schedule, he provides a guide to planning the entire season. With 53 undated weekly spreads, these diaries are the most comprehensive training logs available with space for: every training detail, from weather conditions to resting heart rate and daily nutrition charts to organize race results and fitness indicators; physiological test results such as VO<sub>2</sub>max and lactate threshold; two-a-day workouts and weekly summary data specific to triathlon. The Triathlete's Training Diary takes training seriously. Athletes can be confident that they will be better prepared for competition and have insight to the progress made along the way.

**YOU CAN BE FAST AND HAVE A LIFE!** Those who learn how to balance training with other goals and responsibilities tend to live more fulfilling lives. Most triathletes are full-time working professionals who have aspirations in the workplace, at home and on the course. Ultimately, we are all striving to be well-rounded individuals; but that doesn't mean we have to sacrifice speed! If you learn to train with brutal efficiency, you can have children who know your name AND an obnoxious wall lined with race medals. **A DIVORCE IS NOT A PREREQUISITE TO QUALIFYING FOR KONA.** The Working Triathlete was written for busy people who want to dominate in life and athletics. Learn how to cut out the fluff and wring every drop of potential from your body in the time you have available to train. With a focus on how to maximize your performance in fewer hours, The Working Triathlete is chock full of principles, tips and hacks to help you approach your genetic potential in triathlon without sacrificing other areas of your life. Includes a 12-week General Prep and Half Iron Specific Plan. In Fast-Track Triathlete, elite triathlon coach Matt Dixon offers his plan of attack for high performance in long-course triathlon—without sacrificing work or life. Developed for busy professionals with demanding schedules, the Fast-Track Triathlete program makes your PR possible in Ironman®, Ironman 70.3®, Rev3, and Challenge triathlon in about 10 hours a week. Training for long-course triathlons once demanded 15-20 hours each week—on top of work, family, travel and other time commitments. For many, preparing for long-distance triathlon is more challenging than the race itself. Now Fast-Track Triathlete opens the door to your best performance in full- and half-distance triathlons in half the traditional training time. Dixon's laser-focused, effective approach to workouts, recovery, strength and mobility, and nutrition means you can prepare for triathlon's greatest challenges in just 7-10 hours per week for half-distance and 10-12 hours per week for full-distance. Fast-Track Triathlete includes • Dixon's complete guide to creating a successful sport and life performance recipe • How to plan out your triathlon training • Scaling workouts for time and fatigue • Training and racing during travel • Executing your swim-bike-run and transitions plan on race day • 10-week off-season training program with key workouts • 14-week pre-season training program with key workouts • 14-week comprehensive race-prep full and half training plans with fully integrated strength and conditioning Dixon's first book, The Well-Built Triathlete, revealed his four-tiered approach to success in all triathlon race distances. Fast-Track Triathlete turbocharges Dixon's well-built program so even the busiest athletes can achieve their long-distance triathlon dreams without sacrificing so much to achieve them.

A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called "moderate-intensity rut," spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In 80/20 Triathlon, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance--Sprint, Olympic, Half-Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results.

Are you thinking about getting into triathlon or doing your first race? Have you finished a couple of races and are keen to improve your time? Do you find the whole sport daunting and confusing? Are you a little intimidated by everybody else who looks like they know what they are doing? This easy to understand and insightful book is packed with practical ways you can improve and it will help you: • Understand the sport

of triathlon “what is triathlon and how does it work?” • Develop a training plan together that simplifies your season • Train effectively so you minimise the risk of getting injured • Stop you making the mistakes which cost a lot of time and money • Make you feel confident when you are on the start line • Decide what race length is best for you from sprint to Ironman • Buy the right triathlon kit to suit your ability and your aspirations A personal note from the author: “This book is gathered from years of training and racing but not only from my triathlon experience but from the experience of champions. I have trained with and raced with elite athletes and winners from all over the world but I started not knowing what I was doing and was scared to death when I did my first race. I wish I had this book when I started out. I would have saved myself a lot of heart ache and stress! I wrote this to help all triathlon rookies get over their nerves and enjoy this fantastic sport.”

“Triathlon for beginners” is the start to finish complete guide which covers all the areas of training and racing including: • Where to start – types of races, what you need to know and where to begin • Jargon buster – helping you understand the terms of the sport so you can understand what people are talking about when they say “T1” or “Brick”! • Training rules and techniques • Swimming technique and etiquette • Running technique and how to prevent injury and run faster • Cycling in a pack what to do and what not to do • Transition – how to lay it out, what to bring and how to be effective • Understanding nutrition and why it is key, how best to manage your nutrition and what is best to eat for triathlon training and racing • Race day – what to look out for, how to prepare and what to expect This guide takes you from start to finish so you can feel confident and comfortable when you train and race. Here are some of the comments we have had from readers... I loved this book! I have completed a few triathlons- sprint and Olympic distance. This book really simplified what is important to focus on. There is so much to know and learn that sometimes you feel overwhelmed. It is an easy, entertaining read but packed with good knowledge that made a big difference to my racing. Charlotte Campbell, World Games triathlon gold medallist I wish this was around before! I did a number of Triathlons over the last few years. When I first took it up I had to ask people's advice which at best was disjointed and worst, confusing. I also read some very good stuff on the internet, however this was also disjointed and incomplete. This book would have been ideal, as it puts it all together clearly and concisely. Liam Harrington; sprint triathlete

A regimen for training that can be followed by anyone, anywhere, any time of year, and that makes triathloning a pleasure rather than an ordeal. The explosion of interest in physical fitness that has sent Americans running, bicycling, and swimming by the tens of thousands now extends to the fitness competition that combines all three --triathloning. Steven Jonas, a former nonathlete who began endurance sports in middle age, offers an accessible program for anyone from beginner to experienced jogger. Dr. Jonas's own experiences are the basis of this user-friendly book, directed to the person who wants to do more than just run. He sets forth basic recommendations on equipment necessary for triathloning and outlines a three-phased training program that will take the untrained beginner to a state of fitness where he or she can complete a triathlon of moderate distance. The book includes a chapter on nutrition and a stretching program. Dr. Jonas has revised and updated the work to include information on how to run longer races, how to train for the increasingly popular duathlon (run/bike/run), and new tips from his further fifteen years of experience. Techniques, fitness, training, equipment, nutrition, pre-race, the race itself --a readable introduction for the aspiring recreational triathlete. A new chapter on duathlons and how to run longer races, and updated appendixes on the latest magazines and books of interest to triathlons.

In The Power Meter Handbook, Joe Friel offers cyclists and triathletes a simple user's guide to using a power meter for big performance gains. In simple language, the most trusted coach in endurance sports makes understanding a power meter easy, no advanced degrees or tech savvy required. Cyclists and triathletes will master the basics to reveal how powerful they are. Focusing on their most important data, they'll discover hidden power, refine their pacing, and find out how many matches they can burn on any given day. Once they understand the fundamentals, Friel will show how to apply his proven training approach to gain big performance in road races, time trials, triathlons, and century rides. With The Power Meter Handbook, riders will: Precisely match their training to their race season Push their limits step by step Track fitness changes--reliably and accurately Peak predictably for key events Vastly improve training efficiency Power meters aren't just for the pros or racers anymore. Now The Power Meter Handbook makes it easy for any cyclist or triathlete to find new speed with cycling's most advanced gear.

"Respected running and fitness expert Matt Fitzgerald explains how the 80/20 running program--in which you do 80 percent of runs at a lower intensity and just 20 percent at a higher intensity--is the best change runners of all abilities can make to improve their performance. With a thorough examination of the science and research behind this training method, 80/20 Running is a hands-on guide for runners of all levels with training programs for 5K, 10K, half-marathon, and marathon distances"--

Provides expertise for triathlon athletes seeking to raise their game by fine-tuning their physique, developing a race strategy, and setting personal goals.

Your Best Triathlon is a master plan that will guide experienced triathletes through every week of their season. For each phase of training, Joe lays out the path to success, outlining clear objectives and the guidelines to meet them. Joe Friel's highly refined training plans for sprint, Olympic, half-Ironman®, and Ironman® race distances will help serious triathletes deliver a breakout performance, even those with countless races under their belt. Joe offers a tool kit of proven workouts that will isolate and develop specific abilities. Within each workout and plan, he offers easy modifications to better manage personal limiters and improve performance. Hundreds of thousands of triathletes have relied on Joe Friel and his groundbreaking best seller, The Triathlete's Training Bible, to develop their own self-coached training programs. Now Joe Friel, the most experienced coach in triathlon, reveals his formula for advanced training and coaches triathletes to their best race ever.

Swim. Bike. Run. If the combination of those three words gets you excited, then you need Train to Tri: Your First Triathlon. Written by experts with USA Triathlon (USAT), the largest multisport organization in the world, this book provides proven strategies, secrets, and advice to gear up for your first sprint-distance or standard-distance event. This is not another one-size-fits-all program. Train to Tri is designed so you can focus on the training you need most. You'll establish a baseline in each of the three phases: running, cycling, and swimming. You'll find bronze, silver, or gold levels of training for each phase, which can be combined and customized to your needs, your goals, and your lifestyle. Train to Tri is more than just training. It's total preparation. Featuring expert advice on selecting gear, staying motivated, overcoming challenges, preventing burnout, determining nutritional needs, and achieving recovery, it's a multifaceted plan for multisport success. If you're ready to go from athlete to triathlete, let Train to Tri and the experts at USAT lead the way.

Internationally recognized triathlon coach and best-selling author Joe Friel teams up with ultra-endurance guru Gordon Byrn in Going Long, the most comprehensive guide to racing long-course and Ironman-distance triathlons. Combining science with personal experience, Friel and Byrn prepare anyone, from the working age-grouper to the podium contender, for success in triathlon's ultimate endurance event. Whether you are preparing for your first long-course triathlon or your fastest, Going Long will make every hour of training count. 40 sport-specific drills to improve technique and efficiency Updates to mental training Key training sessions, workout examples, and strength-building exercises A simple approach to balancing training, work, and family obligations A new chapter on active recovery, injury prevention and treatment Going Long is the best-selling book on Ironman training. Friel and Byrn guide the novice, intermediate, and elite triathlete, making it the most comprehensive and nuanced plan for Ironman training ever written. Going Long is the best resource to break through an Ironman performance plateau to find season after season of long-course race improvements.
