A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

The 30th edition of the World Investment Report looks at the prospects for foreign direct investment and international production during and beyond the global crisis triggered by the COVID-19 (coronavirus) pandemic. The Report not only projects the immediate impact of the crisis on investment flows, but also assesses how it could affect a long-term structural transformation of international production. The theme chapter of the Report reviews the evolution of international production networks over the past three decades and examines the configuration of these networks today. It then projects likely course changes for the next decade due to the combined effects of the pandemic and pre-existing megatrends, including the new industrial revolution, the sustainability imperative and the retreat of laissez faire policies. The system of international production underpins the economic growth and development prospects of most countries around the world. Governments worldwide will need to adapt their investment and development strategies to a changing international production landscape. At the request of the UN General Assembly, the Report has added a

dedicated section on investment in the Sustainable Development Goals, to review global progress and propose possible courses of action.

## ILLEGAL IMMIGRATION: THE CONSEQUENCE OF MISPLACED TRUST \*\*\*\*\* A Laymans Close,

Hard Look at The Immigration Reform and Control Act of 1986 Have you ever asked yourself some of these questions? Why has our government failed in its duty to protect our border with Mexico? Why has our government permitted the use of our ports of entry by millions of aliens who, once safely through the gates, disappear into the crowd and become illegal immigrants like those who steal across the border? Why is it that for the past 25 years our government has been seemingly quite incapable of preventing employers in our country from hiring illegal immigrants when that was the specific means by which that same government promised us an end to illegal immigration? Why must we have illegal immigration in the first place? Whats been the cause of it? If youve wondered about that and would like to know the truth about these matters, then you will find it here in this book. Answers that are clearly stated, fact-based and so logical as to be altogether unavoidable. Answers that, in addition, are almost certain to surprise you, since they are not the answers to these questions that we hear from our columnists or from our talking heads and certainly not from our politicians. The fact of illegal

immigration stands in stark contrast with our countrys policies and its laws. In explaining how we came to be so afflicted with it, this book will open up a whole new world for you, a world of which youve likely been largely oblivious. Above all, this is an honest book, a book that you can trust, something youll discover for yourself and by no later than in its first chapter.
