The Pin Is Mightier Than the Sword “Denise Alvarado is a true hoodoo mamba home girl who burned hi-octane conjure in New Orleans where she grew up, and on visits to relatives in the Mississippi bayous, where she was formally introduced to the Voodoo/hoodoo path. Called by the spirits and taught conjuration by family members, she was working the goofer from five years old. That’s some serious heat. Denise is no pretender. She’s for real. She fixes the formulas, raises the spirits, calculates the mathematics, and works wonders at the old dirt track crossroads.” -Doktor Snake, author of Doktor Snake’s Voodoo Spellbook When it comes to Voodoo, few things are more iconic than the Voodoo doll. Known also as conjure dolls, doll babies, dollies, baby dolls, poppets, fetich, fetish, and effigies, they are servants of fast-acting, long-lasting magic. If you are seeking a new job or new friends, need to find your one true love or keep your lover at home, wish to be rid of your enemies or protect yourself from thievery, in these pages you will find the doll and the spell to do just that and more. Drawing not only on New Orleans Voodoo and hoodoo traditions, Alvarado also presents doll spellwork from ancient Greece, Egypt, Malaysia, Japan, Africa, and the European grimoires of old magic. You’ll learn how to make, use, and properly dispose of your Voodoo doll. Be warned: this is some of the most effective magic that exists so be ready to reap what you are about to sow, or in this case, sew! Two real-life characters in a 19th-century fairy tale romance come to life with a complete wardrobe of dazzling military uniforms, ball gowns, a riding costume, and coronation apparel. ? Paper dolls might seem the height of simplicity--quaint but simple toys, nothing more. But through the centuries paper figures have reflected religious and political beliefs, notions of womanhood, motherhood and family, the dictates of fashion, approaches to education, individual self-image and self-esteem, and ideas about death. This book examines paper dolls and their symbolism--from icons made by priests in ancient China to printable Kim Kardashians on the Internet--to show how these ephemeral objects have an enduring and sometimes surprising presence in history and culture.

What are these barbaric rituals that pass for social and family life? Who are these fearsome creatures who linger in decaying mansions and at glittery malls, trendy weddings and dinner parties? These are the questions that trouble Simone, a beautiful, smart young Haitian woman. She has fled the chaotic violence of Port-au-Prince only to find herself in a world no less brutal or bizarre -- a seemingly civilized landscape where dead sheep swing from trees, lightbulbs are ceremonially buried, fur-clad mothers carve terrifying goddesses out of pumice...and where learning to lie is the principal rite of passage into adulthood. The primitive people of this darkly satiric novel are not, as one might expect, the backward denizens of some savage isle, but the wealthy inhabitants of the Hudson Valley in upstate New York. A history of the community and people of Lawrence County, Arkansas.

There has been an increased awareness of hoarding in recent years, but clinical treatments aimed at helping people with this condition often have low success rates. In The Hoarding Impulse Renee M. Winters explores how depth psychology can enrich current conceptual models and treatment standards for compulsive hoarding. The book presents case studies of prominent sufferers including Edie and

Edith Beale, the Collyer Brothers, and Andy Warhol and explores common themes of loss, shame and object clusters. Winters sets out to provide a clear understanding of a hoarder's lived experiences and their core schemas of value, worth and personal identity, revealing a direct connection to excessive acquisition of objects. She illuminates the process of how objects can come to possess a hoarder and become not only their main source of happiness but also part of their identity and in doing so puts forward a new treatment plan based on providing a deeper understanding of and potent treatment approach to what is a core issue for hoarding individuals: the wounding of the soul. This new perspective to treating individuals who hoard helps them in the long term understand their processes, value system, and struggles with negative interpersonal relationships. Providing a fascinating insight into the psyche of people who struggle with hoarding, this book will be essential reading for depth psychologists, Jungian psychotherapists, psychiatrists, social workers, students of analytical psychology and anyone interested in understanding the dynamics of this complex condition.

Coping with illness, tragedy, and heartbreak was not a deterrent to education, a career, and a fulfilling marriage.

This book includes a short history of interactive narrative and an account of a small group collaboratively authored social media narrative: Romeo and Juliet on Facebook: After Love Comes Destruction. At the forefront of narrative innovation are social media channels – speculative spaces for creating and experiencing stories that are interactive and collaborative. Media, however, is only the access point to the expressiveness of narrative content. Wikis, messaging, mash-ups, and social media (Facebook, Twitter, YouTube and others) are on a trajectory of participatory story creation that goes back many centuries. These forms offer authors ways to create narrative meaning that reflects our current media culture, as the harlequinade reflected the culture of the 18th century, and as the volvelle reflected that of the 13th century. Interactivity, Collaboration, and Authoring in Social Media first prospects the last millennium for antecedents of today's authoring practices. It does so with a view to considering how today's digital manifestations are a continuation, perhaps a reiteration, perhaps a novel pioneering, of humans' abiding interest in interactive narrative. The book then takes the reader inside the process of creating a collaborative, interactive narrative in today's social media through an authoring experience undertaken by a group of graduate students. The engaging mix of blogs, emails, personal diaries, and fabricated documents used to create the narrative demonstrates that a social media environment can facilitate a meaningful and productive collaborative authorial experience and result in an abundance of networked, personally expressive, and visually and textually referential content. The resulting narrative, After Love Comes Destruction, based in Shakespeare's Romeo and Juliet, shows how a generative narrative space evolved around the students' use of social media in ways they had not previously considered both for authoring and for delivery of their final narrative artifact.
