The ignorant bystander: Britain and the Rwandan genocide uses a case study of Britain's response to the genocide to explore what factors motivate humanitarian intervention in overseas crises. The Rwandan genocide was one of the bloodiest events in the late twentieth century and the international community's response has stimulated a great deal of interest and debate ever since. In this study, Dean White provides the most thorough review of Britain's response to the crisis written to date. The research draws on previously unseen documents and interviews with ministers and senior diplomats, and examines issues such as how the decision to intervene was made by the British Government, how media coverage led to a significant misunderstanding of the crisis, and how Britain shaped debate at the UN Security Council. The book concludes by comparing the response to Rwanda, to Britain's

Cricket has an alarming suicide rate. Among international players for England and several other countries it is far above the national average for all sports: and there have been numerous instances at other levels of the game. For thirty years, celebrated cricket author David Frith has collected data on this sad subject. *Silence of the Heart* is his compelling account of over a hundred cricketers - involving top names from the past hundred years - who have taken their own lives, with an explanation of factors that led to their premature deaths. Can the shocking rate of self-destruction among cricketers be reduced? Can those who run the game do something to save its participants from this dreadful fate? These are among the questions addressed within this catalogue of biographies. But the key question is whether

cricket itself is to blame for its losses - or is that this summer game attracts people of a melancholic and over-sensitive nature? Stoddart, Shrewsbury, Gimblett, Bairstow, Trott, Iverson, Robertson-Glasgow, Barnes . . . There remains a sense of disbelief that these high-profile cricketers killed themselves. And many more cases are examined in this extraordinary book, which comes crammed with detail, is not devoid of humour, and must rank among the most intricately researched volumes in cricket's extensive library. With a foreword by former England captain Mike Brearley, now a psychotherapist, *Silence of the Heart* is a startling investigative narrative covering the phenomenon of cricket's unduly high level of suicide. *Cases & Materials on Constitutional and Administrative Law* provides you with a comprehensive selection of legal resources to accompany your studies. Extracts from leading cases, academic works, and political documents are drawn together with incisive author commentary and thought-provoking questions to highlight the historical debates and ongoing development of the subject. The authors take a critical look at the doctrines of constitutional law and the principles of administrative law, showing how the constitution operates in relation to Parliament, the Executive, and the citizen. The eleventh edition has been fully revised and updated with new extracts and commentary from recent case law and legislation, and also features a new chapter on devolution.
