Learn how to weave colorful rubber bands together and create your own jewelry. Crafters practice reading comprehension as they follow the steps for each project. The easiest crafts are at the beginning, to allow the reader to practice scaffolding their knowledge as they learn the domain-specific vocabulary.

The fate of inventors and patentees today is far worse than it was for Robert Kearns—the inventor of the intermittent windshield wiper whose story was portrayed in the movie, A Flash of Genius. Mr. Kearns battled automotive infringers for years on end. His wife divorced him. He became estranged from his children. He was placed in a mental hospital. Eventually he prevailed. But Mr. Kearns “only” had to battle infringers. Today, an inventor’s battles to uphold and enforce his patent would include resistance from infringers. The Patent Trial and Appeal Board. District courts. The Federal Circuit. The Supreme Court. State attorneys general. Congress. The executive branch. Even if a resilient patentee recovers damages, the media will cast this “patent troll” as a scourge on society. In Plight of the Patentee, you will read stories about inventors waiting more than a decade for their patent applications to grant. You will meet dozens of inventors who have suffered from flagrant infringement.

The author of the best-selling book Totally Awesome Rubber Band Jewelry is back with 15 more super-sweet projects for sensational rubber band jewelry! All the projects have clear step-by-step illustrated instructions, so you'll be an expert in no time!

A leader in educational technology separates truth from hype, explaining what tech can—and can't—do to transform our classrooms.

Proponents of large-scale learning have boldly promised that technology can disrupt traditional approaches to schooling, radically accelerating learning and democratizing education. Much-publicized experiments, often underwritten by Silicon Valley entrepreneurs, have been launched at elite universities and in elementary schools in the poorest neighborhoods. Such was the excitement that, in 2012, the New York Times declared the “year of the MOOC.” Less than a decade later, that pronouncement seems premature. In *Failure to Disrupt: Why Technology Alone Can't Transform Education*, Justin Reich delivers a sobering report card on the latest supposedly transformative educational technologies. Reich takes readers on a tour of MOOCs, autograders, computerized “intelligent tutors,” and other educational technologies whose problems and paradoxes have bedeviled educators. Learning technologies—even those that are free to access—often provide the greatest benefit to affluent students and do little to combat growing inequality in education. And institutions and investors often favor programs that scale up quickly, but at the expense of true innovation. It turns out that technology cannot by itself disrupt education or provide shortcuts past the hard road of institutional change. Technology does have a crucial role to play in the future of education, Reich concludes. We still need new teaching tools, and classroom experimentation should be encouraged. But successful reform efforts will focus on incremental improvements, not the next killer app.

A Gallery of Our Own: Women of Art History seeks to balance art history and art appreciation by teaching the artistic contributions of women. This series will teach about the artists, the art movements they were a part of, the history during the time period in which they lived, and the forms of art they created. It also includes hands-on projects using a variety of mediums and techniques, observation activities and a journal to keep track of what you learn. In this edition, learn about: Sophie Taeuber-Arp's early life, education, art career, Dada, and the world events that surrounded her life Weaving, collage, embroidery, puppets and puppetry, found object and readymade art Art vocabulary Learn through: Digestible texts interspersed with colorful illustrations and video links Observing and interacting with artwork Hands on art projects offered at a variety of levels Notebooking pages to organize, reinforce, and review their new knowledge Suggested resources for deeper exploration A Beautiful New Twist on Rubber Band Looming! The bright colors and fun patterns of rubber band looming make for an easy and fun jewelry craft that everyone loves. Add sparkling glass beads, crystals, and other embellishments, and you have a recipe for some seriously glamorous jewelry and accessories! Rubber Band Glam features stunning designs by the three creators of the popular rubber band looming website and YouTube channel LoomLove.com, mom Christina Friedrichsen-Truman and her daughters Emily and Madeline Truman. Ping through these loom ideas, stretch your imagination, and you'll become an accomplished loomineer in no time! While you wait for your book to arrive, enjoy these links to begin your looming fun! Just cut and paste the link into your browser to get started: http://youtu.be/w_3ESA_dfiA <http://youtu.be/SNe2kAqKA-U> <http://youtu.be/cYaqqLQRhas>

When young Iqbal is sold into slavery at a carpet factory, his arrival changes everything for the other overworked and abused children there. It is Iqbal who explains to them that despite their master's promises, he plans on keeping them as his slaves indefinitely. But it is also Iqbal who inspires the other children to look to a future free from toil...and is brave enough to show them how to get there. This moving fictionalized account of the real Iqbal Masih is told through the voice of Fatima, a young Pakistani girl whose life is changed by Iqbal's courage.

The only book you'll need on the fundamentals of threads and weaves, plus numerous projects for beginner to advanced weavers, plus two-harness looms, four-harness looms, fabrics, colors, much more. Over 160 illustrations.

In *Unstuck in Time*, Gregory Sumner guides us, with insight and passion, through a biography of fifteen of Kurt Vonnegut's best known works, his fourteen novels starting with *Player Piano* (1952) all the way to an epilogue on his last book, *A Man Without a Country* (2005), to illustrate the quintessential American writer's profound engagement with the "American Dream" in its various forms. Sumner gives us a poignant portrait of Vonnegut and his resistance to celebrating the traditional values associated with the American Dream: grandiose ambition, unbridled material success, rugged individualism, and "winners" over "losers." Instead of a celebration of these values, we read and share Vonnegut's outrage, his brokenhearted empathy for those who struggle under the ethos of survival-of-the-fittest in the frontier mentality—something he once memorably described as "an impossibly tough-minded experiment in loneliness." Heroic and tragic, Vonnegut's novels reflect the pain of his own life's experiences, relieved by small acts of kindness, friendship, and love that exemplify another way of living, another sort of human utopia, an alternative American Dream, and the reason we always return to his books.

This book includes twenty-five new rubber band loom projects, including bracelets, sports-themed charms, key rings, pendants, and even a working slingshot. New crafters and dedicated fans will enjoy creating the wide variety of projects in this collection,

including: Cell phone case Daisy chain bracelet Watch band Octo bracelet Blooming beaded bracelet Sports fan keychain Matching barrettes Pencil topper Rainbow ring Nunchuks Rocker cuff bracelet Snowman ornament And many more!

Potholder looms can make so much more than potholders! You can weave on these popular looms using the traditional loops or with nearly any yarn to make a variety of patterns, including Plain Weave, Twill, and Checkerboard. You can also weave shapes other than squares, such as rectangles and triangles. This variety of options means you can weave just the modules you need to make projects from wall hangings to place mats, runners, baskets, and more. Noreen teaches and explains each step of the techniques and projects in full detail, with photos, so even if you have never woven before, you'll easily be able to accomplish any project in this book. Tapestry weaving is also fun on the potholder loom, and Noreen shows you how with detailed instructions for setting up your loom and working tapestry techniques. Start with the Tapestry Sampler and then try your hand at personalized wall dolls, colorful wall hangings, and decorative art pieces. All you need to know for successful weaving on your potholder loom is in this comprehensive book! 30+ projects for wall hangings, place mats, baskets, and more Weave with yarn or loops Instructions for the traditional 18 peg loom and also for 9 and 27 peg looms
