The effects of the great Evangelical Revival in eighteenth-century England were felt throughout the world, not least in America. It has long been accepted that the Revival owed much of its initial impetus to the Moravian Church, but previous accounts of the Moravians' role have been inadequate and overly dependent on Wesleyan sources. Colin Podmore uses original material, from German as well as British archives to dispel common misunderstandings about the Moravians, and to reveal that their influence was much greater than has previously been acknowledged. Dr Podmore discusses what motivated people to join the Church, analyses the Moravians' changing relationships with John Wesley and George Whitefield, and shows how Anglican bishops responded to the Moravians' successive ecumenical strategies. His analysis of the successful campaign to secure state recognition (granted in 1749) sheds light on the inner workings of the Hanoverian parliament. In conclusion, he examines how acclaim quickly turned to ridicule in a crisis of unpopularity which was to affect the Moravian Church for a generation.

Unit I 1. Real And Complex Matrices And Linear System Of Equations 2. Eigen Values And Eigen Vectors 3. Quadratic Forms Unit Ii 4. Solution Of Algebraic And Transcendental Equations 5. This book is a revamped version of the title Managerial Economics and Financial Analysis from the author A. Ramachandra Aryasri. It is specially designed to meet the requirements of course Business Economics and Financial Analysis for B.Tech. students of JNTU Hyderabad. The subject matter is presented in an easy-to-understand language, with ample examples and focus on modern day industry practices. Salient Features: • In-depth coverage of all the topics as per JNTU-Hyderabad syllabus • Discussion on contemporary issues, such as block-chain technologies and accounting, economic slowdown in India, Gross Domestic Product in India, etc. • Learning objectives and chapter-end summary with each chapter • Subject matter supported with several real-life industry-based illustrations • Rich pool of subjective and multiple-choice questions • A set of four model question papers at the book end

This book focuses on the emotional complexity of language teaching and how the

diverse emotions that teachers experience while teaching are shaped and function. The book is based on the premise that teaching is not just about the transmission of academic knowledge but also about inspiring students, building rapport with them, creating relationships based on empathy and trust, being patient and most importantly controlling one's own emotions and being able to influence students' emotions in a positive way. The book covers a range of emotion-related topics on both positive and negative emotions which are relevant to language teaching including emotional labour, burnout, emotion regulation, resilience, emotional intelligence and wellbeing among others. These topics are studied within a wide range of contexts such as teacher education programmes, tertiary education, CLIL and action research settings, and primary and secondary schools across different countries. The book will appeal to any student, researcher, teacher or policymaker who is interested in research on the psychological aspects of foreign language teaching.
