modern society recognizes those Christian symbols that kept the early Christians safely connected: they appear on churches, bumper stickers, mugs -- even mints and stuffed animals. Yet we are often ignorant of the rich meaning of these symbols: their origins in Scripture, in ancient culture, and in the preaching of the Church Fathers. In this book, noted author Mike Aquilina conducts an intriguing and insightful tour of the symbols that expressed the life and devotion of the Church through the first four centuries of its existence. He explains how Christians freely borrowed pagan and Jewish symbols, giving them new, distinctly Christian meanings. Recover the zeal of our spiritual ancestors as you learn to read their symbolic language -- and discover the impact the symbols still have on your life today. More than a hundred illustrations, reproduced by artist Lea Marie Ravotti from the ancient originals, beautifully complement the text. This book combines concepts from the history of religions with Byzantine studies in its assessments of kings, symbols, and cities in a diachronic and cross-cultural analysis. The work attests, firstly, that the symbolic art and architecture of ancient cities—commissioned by their monarchs expressing their relationship with their gods—show us that religiosity was inherent to such enterprises. It also demonstrates that what transpired from the first cities in history to Byzantine Christendom is the gradual replacement of the pagan ruler cult—which was inherent to city-building in antiquity—with the ruler becoming subordinate to Christ; exemplified by representations of the latter as the ‘Master of All’ (Pantokrator). Beginning in Mesopotamia, the book continues with an analysis of city-building by rulers in Egypt, Greece, and Rome, before addressing Judaism (specifically, the city of Jerusalem) and Christianity as shifting the emphasis away from pagan-gods and rulers to monotheistic perceptions of God as elevated above worldly kings. It concludes with an assessment of Christian Rome and Constantinople as typifying the evolution from the ancient and classical world to Christendom.
