When the wagons of the Voortrekkers - the Boers, those hardy descendants of the Dutch - moved into the southern African interior in 1836, on the Great Trek, their epic journey to escape British control at the Cape, the wheels of their wagons crunched over carpets of skeletons of those slain in the Mfecane. The years 1815 to 1840 were probably the most devastating and violent period of South Africa's turbulent history. The Mfecane (Zulu) or Difaqane (Sotho) was a result of many factors including internecine conflict among the Zulu tribes themselves. Faced with the wrath of the great King Shaka, Mzilikazi (The Road) fled with his followers, who became the Matabele, cutting a swathe of destruction, pillage and genocide across southern Africa from the land of the Zulu (KwaZulu-Natal today) to the Highveld in the north. New alliances and allegiances were forged as refugees fled from the path of the rampaging Mzilikazi, leading to the creation of new nations and alliances between the arriving Voortrekkers and the enemies of the Matabele. Finally defeated in 1836 by the Voortrekkers in a nine-day battle, Mzilikazi crossed the Limpopo River and founded the kingdom of the Matabele in what is now Zimbabwe.

LIMITED AUTOGRAPHED EDITION This is the original unedited manuscript of the 1985 bestselling novel by Joshua Sinclair which was adapted by him into the legendary television series by the same name. This true story chronicles with mythic detail the life of Shaka Zulu, the greatest African leader in history. Framed around Queen Victoria's decision on England's political stance towards the Zulu Nation, the novel starts with Shaka's illegitimate birth, taking us through his difficult childhood, his obsessive attachment to his mother Nandi, to his overthrow of the leadership of the Zulu nation. Building on his innovative methods of warfare, King Shaka established the most disciplined standing army in the history of Mankind (over one million strong at any given time) expanding the Zulu domain from a small tribe of less than 2,000 to an empire greater than that of Napoleon encompassing much of what is now south-east Africa. Mixing prophecy with oral tradition, the author, Joshua Sinclair, spans four decades of Africa's History dramatically punctuating the rise and fall of the one of most formidable empire this world has ever known.

Traces the history of the Zulu people, looking at Shaka--founder of the Zulu nation--and examining the changing role these people have had to play through the transitions in African society

Studies of cultural tourism and indigenous identity are fraught with questions concerning exploitation, entitlement, ownership and authenticity. Unease with the idea of leveraging a group identity for commercial gain is ever-present. This anthology articulates some of these debates from a multitude of standpoints. It assimilates the perspectives of members of indigenous communities, non-governmental organizations, tourism practitioners and academic researchers who participated in an action research project that aims to link research to development outcomes.

1828. King Shaka has survived an assassination attempt. Important trade routes have been secured. Yet all is far from calm in the Zulu Empire... The bulk of Shaka's army toils in the diseased swamps of Mozambique; the white men at Port Natal have begun disobeying his laws; and enemy tribes are slowly infiltrating Zulu territory. Both king and kingdom are more vulnerable than ever. With Shaka increasingly withdrawn, it falls to the Induna - his most loyal warrior - and his trusted sidekick, to quell this disquiet. And thus begins their adventure... The duo must solve mysteries, brave battles and shed blood - and in the process face off against bandits, thieves, slavers, cannibals and plotting princes - if their magnificent kingdom and its ailing creator are to stand a chance of enduring.

Since his assassination in 1828, King Shaka Zulu--founder of the powerful Zulu kingdom and leader of the army that nearly toppled British colonial rule in South Africa--has made his empire in popular imaginations throughout Africa and the West. Shaka is today the hero of Zulu nationalism, the centerpiece of Inkatha ideology, a demon of apartheid, the namesake of a South African theme park, even the subject of a major TV film. Terrific Majesty explores the reasons for the potency of Shaka's image, examining the ways it has changed over time--from colonial legend, through Africanist idealization, to modern cultural icon. This study suggests that tradition cannot be freely invented, either by European observers who recorded it or by subsequent African ideologues. There are particular historical limits and constraints that operate on the activities of invention and imagination and give the various images of Shaka their power. These insights are illustrated with subtlety and authority in a series of highly original analyses. Terrific Majesty is an exceptional work whose special contribution lies in the methodological lessons it delivers; above all its sophisticated rehabilitation of colonial sources for the precolonial period, through the demonstration that colonial texts were critically shaped by indigenous African discourse. With its sensitivity to recent critical studies, the book will also have a wider resonance in the fields of history, anthropology, cultural studies, and post-colonial literature.

More starkly than any other contemporary social conflict, the crisis in South Africa highlights the complexities and conflicts in race, gender, class, and nation. These original articles, most of which were written by South African authors, are from a special issue of the *Radical History Review*, published in Spring 1990, that mapped the development of interpretations of the South African past that depart radically from the official history. The articles range from the politics of black movements in the nineteenth and twentieth centuries to studies of film, television, and theater as reflections of modern social conflict. History from South Africa is presented in two main sections: discussions of the historiography of South Africa from the viewpoint of those rewriting it with a radical outlook; and investigations into popular history and popular culture—the production and reception of history in the public realm. In addition, two photo essays dramatize this history visually; maps and a chronology complete the presentation. The book provides a fresh look at major issues in South African social and labor history and popular culture, and focuses on the role of historians in creating and interacting with a popular movement of resistance and social change.

1818, south east Africa: on the summit of a low hill, encircled by a foe six times their number, fifteen hundred men armed with cowhide shields and short stabbing spears sit and wait as the midday sun blazes overhead. Calm in the face of the horde gathering below, they know it's a good day for dying? but a better one for killing. At the centre of their formation a tall, broad-shouldered man surveys his troops. Only at his command will they rise and engage the enemy. He is Shaka, his men are Zulu - the best trained foot soldiers in Africa - and the blood spilled in the coming battle will write the opening chapter of their legend. Following in Shaka's footsteps, AmaZulu sweeps across the burned hills of south east Africa's interior, charting the dawn of the Zulu nation through the eyes of the Induna, a battle-scarred captain, and his eleven-year-old apprentice. Aflame with conflict and intrigue, nobility and treachery, it tells the story of an unquenchable thirst for revenge and a genius for warfare that forged an empire as powerful and revered as Napoleon's France or Caesar's Rome.

1826: Shaka, king of the Zulus, has consolidated his power and is ready to move against those who continue to resist his authority. But now a new tribe has appeared, and white men from across the Great Water, claiming they wish to trade with Shaka. These white men may seem puny, and their ways strange, but Shaka believes there's more to them than meets the eye. Obsessed with divining their secrets, however, he becomes oblivious to the threat growing from within his own court. Seething with sorcery and betrayal, battles and intrigue, triumph and tragedy, Shaka the Great sees one of the greatest leaders of all time consolidate his power as the first Europeans begin to arrive on the African continent. It takes us to an empire at its zenith, in a time when the name Zulu began to echo around the world as a byword for courage and nobility.

*How Sanctions Work* surveys theories of international sanctions and offers detailed analyses of the effect of sanctions on apartheid South Africa. Chapters by respected international experts cover cultural isolation, oil and military embargoes, trade boycotts, financial sanctions and divestment, consequences for black South Africans, and regional effects. The book shows how sanctions both directly and indirectly hurt the apartheid regime while in some cases offering succour to the anti-apartheid movement.

Features five of the author's best early stories: title selection plus "The Phantom Rickshaw," "Wee Willie Winkie," "Without Benefit of Clergy" and "The Strange Ride of Morrowbie Jukes."

With the recent release of spectacular blockbuster films from *Gladiator* to *The Lord of the Rings* trilogy, the epic has once again become a major form in contemporary cinema. This new volume in the *AFI Film Readers* series explores the rebirth of the epic film genre in the contemporary period, a period marked by heightened and conflicting appeals to national, ethnic, and religious belonging. The original essays in this volume explore the tension between the evolving global context of film production and reception and the particular provenance of the epic as an expression of national mythology and aspirations, challenging our understanding of epics produced in the present as well as our perception of epic films from the past. The contributors will explore new critical approaches to contemporary as well as older epic films, drawing on ideas from cultural studies, historiography, classics, and film studies.

Between 1838 and 1888 the recently formed Zulu kingdom in southeastern Africa was directly challenged by the incursion of Boer pioneers aggressively seeking new lands on which to set up their independent republics, by English-speaking traders and hunters establishing their neighboring colony, and by imperial Britain intervening in Zulu affairs to safeguard Britain's position as the paramount power in southern Africa. As a result, the Zulu fought to resist Boer invasion in 1838 and British invasion in 1879. The internal strains these wars caused to the fabric of Zulu society resulted in civil wars in 1840, 1856, and 1882-1884, and Zululand itself was repeatedly partitioned between the Boers and British. In 1888, the old order in Zululand attempted a final, unsuccessful uprising against recently imposed British rule. This tangled web of invasions, civil wars, and rebellion is complex. The *Historical Dictionary of the Zulu Wars* unravels and elucidates Zulu history during the 50 years between the initial settler threat to the kingdom and its final dismemberment and absorption into the colonial order. A chronology, an introductory essay, a bibliography, maps, photos, and over 900 cross-referenced dictionary entries that cover the military, politics, society, economics, culture, and key players during the Zulu Wars make this an important reference for everyone from high school students to academics.

*Anglo-Zulu War, 1879: A Selected Bibliography* is a research guide and tool for identifying obscure publications and source materials in order to encourage continued original and thought-provoking contributions to this popular field of historical study. From the student or neophyte to the study of the Anglo-Zulu War, its battles, and its opponents to the more experienced historian or scholar, this selected bibliography is a must for anyone interested in the 1879 Anglo-Zulu War.

Heterosexual Africa? The History of an Idea from the Age of Exploration to the Age of AIDS builds from Marc Epprecht's previous book, Hungochani (which focuses explicitly on same-sex desire in southern Africa), to explore the historical processes by which a singular, heterosexual identity for Africa was constructed—by anthropologists, ethnopsychologists, colonial officials, African elites, and most recently, health care workers seeking to address the HIV/AIDS pandemic. This is an eloquently written, accessible book, based on a rich and diverse range of sources, that will find enthusiastic audiences in classrooms and in the general public. Epprecht argues that Africans, just like people all over the world, have always had a range of sexualities and sexual identities. Over the course of the last two centuries, however, African societies south of the Sahara have come to be viewed as singularly heterosexual. Epprecht carefully traces the many routes by which this singularity, this heteronormativity, became a dominant culture. In telling a fascinating story that will surely generate lively debate, Epprecht makes his project speak to a range of literatures—queer theory, the new imperial history, African social history, queer and women's studies, and biomedical literature on the HIV/AIDS pandemic. He does this with a light enough hand that his story is not bogged down by endless references to particular debates. Heterosexual Africa? aims to understand an enduring stereotype about Africa and Africans. It asks how Africa came to be defined as a "homosexual-free zone" during the colonial era, and how this idea not only survived the transition to independence but flourished under conditions of globalization and early panicky responses to HIV/AIDS.

An overview of South African cinema and filmmakers.

South African film culture, like so much of its public life, has undergone a tremendous transformation during its first decade of democracy.

Filmmakers, once in exile, banned, or severely restricted, have returned home; subjects once outlawed by the apparatchiks of apartheid are now fair game; and a new crop of insurgent filmmakers are coming to the fore. Compiled and edited by Audrey Thomas McCluskey, this extraordinary volume presents twenty-five in-depth interviews with established and emerging South African filmmakers such as Zola Maseko, Teboho Mahlatsi, Ntshaveni wa Luruli, and many more. The interviews capture the filmmakers' spirit, energy, and ambition as they attempt to give birth to a film culture that reflects the heart and aspirations of their diverse and emergent nation.

A detailed chronicle of a significant opening battle in the Anglo-Zulu War: "The Zulu attack on Rorke's Drift thrillingly retold" (Richard Holmes). On January 22nd, 1879, the British Army in South Africa was swept aside by the seemingly unstoppable Zulu warriors at the Battle of Isandlwana. Nearby, at a remote outpost on the Buffalo River, a single company of the 24th Regiment and a few dozen recuperating hospital patients were passing a hot, monotonous day. By the time they received news from across the river, retreat was no longer an option. It seemed certain that the Rorke's Drift detachment would share the same fate. And yet, against incredible odds, the British managed to defend their station. In this riveting history, Colonel Snook brings the insights of a military professional to bear on this fateful encounter at the start of Anglo-Zulu War. It is an extraordinary tale—a victory largely achieved by the sheer bloody-mindedness of the British infantryman. Recounting in detail how the Zulu attack unfolded, Snook demonstrates how 150 men achieved their improbable victory. Snook then describes the remainder of the war, from the recovery of the lost Queen's Colour of the 24th Regiment to the climactic charge of the 17th Lancers at Ulundi. We return to Isandlwana to consider culpability, and learn of the often tragic fates of many of the war's participants.

A charismatic young warrior prince emerges from exile to usurp the old order and forge a new, mighty Zulu kingdom.

The Los Angeles Times called him a "counterculture icon," and TV Guide dubbed him one of "TV's Ten Most Powerful Stars," but true aficionados simply call him "The Hoff." Don't Hassel the Hoff follows David Hasselhoff's phenomenal career, from his earliest childhood role in Peter Pan to his latest adventure, starring in Mel Brooks's Tony award-winning musical, The Producers. There is no better time to celebrate Hasselhoff's life and a career that continues to grow and thrive. As the star of the extremely popular classic television shows, "Baywatch" and "Knight Rider," Hasselhoff is an international mega-star, with platinum album sales and starring roles on Broadway and London's West End. As this fascinating memoir reveals, there's more to this handsome superstar than great hair, and legs that look good while running down a beach. "The Hoff" is also a smart, caring man with a huge heart. "This book is my opportunity to print something from my heart, to tell the truth about what happened to me on the long and winding road from Baltimore to Baywatch to Broadway – and beyond. And the truth is not to be found in tabloid stories but in my actions: I am a good father and tried to be a good husband. I love people and the emotional rollercoaster that goes with human relationships. I love all the bewildering, crazy and wonderful things that life has to offer. This book is about my successes and my failures, my strengths and my weaknesses. And, above all, it is about the hope contained in the Knight Rider slogan: "One man can make a difference." --David Hasselhoff Full of behind-the-scenes looks at Hasselhoff's television series, celebrations of his proudest moments, and the truths about his struggles with relationships and alcohol, Don't Hassel the Hoff is both highly entertaining and deeply personal, making this an engrossing page-turner from start to finish. Long live "The Hoff."

Making Waves follows Hasselhoff's acting career from his early childhood role in Peter Pan to his highly acclaimed performance in Chicago in London's West End, and his new TV triumph in Simon Cowell's America's Got Talent. The wealth of inside information includes untold stories of his first marriage and his life as a TV star in Knight Rider and Baywatch. At times deeply personal, it also reveals his fight against drink that nearly drove him to destruction and the devastating motorbike accident in which his second wife Pamela was badly injured. The conclusion covers the reasons for the breakdown of their marriage. Described as a "living legend", this fascinating book gives a new and moving insight into what it means to be the most watched TV star in the world.

This chronicle of the first battle in the Anglo-Zulu War is "the most powerful and moving modern account of the great Zulu epic that I have ever read" (Richard Holmes, historian and author of The Age of Wonder). On January 22, 1879, a massive Zulu host attacked the British Army's 24th Regiment in its encampment at the foot of the mountain of Isandlwana. It was the first major encounter in the Anglo-Zulu War and a disastrous defeat for the colonial power. Later that afternoon the victorious Zulus would strike the tiny British garrison at Rorke's Drift. How Can Man Die Better is a unique analysis of the Battle of Isandlwana, covering the weapons, tactics, terrain, and the intriguing characters who made key military decisions. While much is still unknown about the battle, this work eschews the commonly held perception that the British collapse was sudden and that the 24th Regiment was quickly overwhelmed. Rather, historian Mike Snook argues that there was a protracted and heroic defense against a determined and equally heroic foe. A British Army colonel who served in South Africa, Snook reconstructs the final phase of the battle in a way that has never been attempted before.

Conventional screen histories tend to concentrate on New York City and Hollywood in chronicling the evolution of American cinema.

Notwithstanding both cities' tremendous contribution, Syracuse and Central New York also played a strategic—yet little-known—role in early screen history. In 1889 in Rochester, New York, George Eastman registered a patent for perforated celluloid film, a development that would telescope the international race to record motion by means of photography to the immediate future. In addition, the first public film projection occurred in Syracuse, New York, in 1896. Norman O. Keim and David Marc provide a highly readable and richly detailed account of the origins of American film in Central New York, the colorful history of neighborhood theaters in Syracuse, and the famous film personalities who got their start in the unlikely snow belt of New York State. Lavishly illustrated, this book will be treasured by both film buffs and Central New Yorkers.

The Anglo-Zulu War was a defining episode in British imperial history, and it is still a subject of intense interest. The Zulu victory at Isandlwana, the heroic British defence of Rorke's Drift and the eventual British triumph are among the most closely researched events of the colonial era. In this historical companion, Ian Knight, one of the foremost authorities on the war and the Zulu kingdom, provides an essential reference guide to a short, bloody campaign that had an enduring impact on the history of Britain and southern Africa. He gives succinct summaries of the issues, events, armies and individuals involved. His work is an invaluable resource for anyone who is interested in the history of the period, in the operations of the British army in southern Africa, and in the Zulu kingdom.

Why Africa? an abstract first painted in 1993 and reproduced in collage in 2004, is variously described by his admirers as an emotional revelation. The work depicts the African question problems and prospects including political instability, corruption, and poverty in the midst of rich natural and human resources. Thus, Why Africa? inspired him to write a book on the subject, applying his creativity with a unique perspective on the African case. Bona has written one book (unpublished) titled: The Ancient and Modern (1992) a story on Urualla, his ancestral origin in Nigeria.

An up-to-date and indispensable guide for film history buffs of all kind, this book surveys more than 500 major films based on true stories and historical subject matter.
