Since the 1930s and '40s, jazz has stood tall in American popular music, drawing into its embrace not only great horn players, percussionists, guitarists, bassists, and pianists, but also some of the greatest singers in America's musical history. Jazz has laid the groundwork for important innovations in modern singing, opening up entirely new ways of delivering songs through what would eventually become jazz standards—songs that formed the basis of the American Songbook. In *So You Want to Sing Jazz*, singer and professor of voice Jan Shapiro gives a guided tour through the art and science of the jazz vocal style. Throughout, Shapiro hones in on what makes jazz singing distinctive, suggesting along the way how other types of singers can make use of jazz. She looks at such key matters in jazz singing as the role of improvisation, the place of specific singers who influenced and even defined vocal jazz as we know it today, and the unique way in which jazz incorporates vibrato, conversational delivery, rhythmic phrasing, and melodic embellishment and improvisation. The book includes guest-authored chapters by singing voice researchers Dr. Scott McCoy and Dr. Wendy LeBorgne. In *So You Want to Sing Jazz*, singers and voice teachers finally have the go-to resource they need for singing vocal jazz. The *So You Want to Sing* series is produced in partnership with the National Association of Teachers of Singing. Like all books in the series, *So You Want to Sing Jazz* features online supplemental material on the NATS website. Please visit www.nats.org to access style-specific exercises, audio and video files, and additional resources.

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)
