Now fully revised and updated using the NRSV, it features a more readable type face and a new, even more effective system for comparison. Jerome (c. 347-419/20), one of the West's four doctors of the church, was recognized early on as one of the church's foremost translators, commentators and advocates of Christian asceticism. Skilled in Hebrew and Greek in addition to his native Latin, he was thoroughly familiar with Jewish traditions and brought them to bear on his understanding of the Old Testament. Beginning in 379, Jerome used his considerable linguistic skills to translate Origen's commentaries and, eventually, to translate and comment on Scripture himself. In 392, while preparing his Latin Vulgate translation of the Bible, Jerome wrote his commentary on Nahum, the first in a series of commentaries on five of the twelve minor prophets. Micah, Zephaniah, Haggai and Habakkuk soon followed. He was interrupted in 393 by the Origenist controversy, after which he became a vocal critic of Origen of Alexandria—a controversy he referred to in his commentaries on Jonah and Obadiah in 396. This Ancient Christian Texts volume, edited and translated by Thomas Scheck in collaboration with classics students from Ave Maria University, includes these seven commentaries. The second volume contains Jerome's commentaries on Zechariah, Malachi, Hosea, Joel and Amos, all of which were written in 406, completing the group of twelve prophets. Throughout these commentaries Jerome displays his familiarity with both Hebrew and Greek texts. His spiritual exegesis relies heavily on the exegetical work of Origen. Jerome looks beyond the nationalistic sentiments of the prophets to see a wider message about God's mercy and justice. His commitment to the truthfulness of the Scriptures as the Word of God is exemplified by his defense of the historicity of Jonah. He finds the fundamental message of the prophets to be the intent to console the saints, so that they may disdain the things of this world and prepare themselves for the day of judgment.

Gregory the Great (c. 560-604 C.E.) occupies a key position in the development of Christian commentary on the Scriptures. Pope and political leader during a chaotic era of transition in the history of Western Europe, he may be best known for his famous encounter with English children in the Roman slave market and his commissioning of St. Augustine of Canterbury's subsequent mission to England. Gregory's "Homilies on the Gospels" were first preached in 591-92, early in his papacy, and were very popular for their vigorous and engaging style. Using simple words to preach to the nobles and common people of Rome, Gregory employs metaphors, analogies, stories and images to answer basic questions of faith. His exegetical interpretation may often seem simplistic to the modern reader, but shows his dependence on earlier patristic tradition and reveals his pastoral heart. -- Book cover.

Focusing on his training in classical literary studies and his extensive interaction with Jewish sources, this book describes the practice of Hebrew scholarship in St Jerome and the significance of Hebrew for his biblical exegesis.

The Eucharist: Mystery of Presence, Sacrifice, and Communion explores the three ends of the Sacrament of Sacraments: God's true presence, His redemptive sacrifice, and spiritual nourishment through communion with Him. In this follow-up to his groundbreaking work, Faith Comes From What Is Heard, Lawrence Feingold constructs a biblical vision of the Eucharist from its prefigurement in the Old Testament to its fulfillment in the New and presents the Eucharistic theology of the Church Fathers, St. Thomas Aquinas, and magisterial teaching from centuries past through today. The Eucharist is a masterful text, both challenging and spiritually rich, that comprehensively examines the unspeakable mystery that is the Eucharist.

The work is heavily indebted to the Greek exegetical tradition, especially Origen.

Jerome was one of the very few early Christian scholars to know any Hebrew. This is a unique introduction, translation, and commentary of his Questions on Genesis - a fascinating work showing a Christian working alongside Jews in an age very different from our own. Jerome's influence on the Church is well known - but this work is equally important for the light thrown on the history and origin of many ideas at the heart of the Jewish tradition.

In 2012, Lukas Dorfbauer identified a manuscript in Cologne Cathedral Library as a copy of the Commentary on the Gospels by Fortunatianus, bishop of Aquileia in the middle of the fourth century. This discovery enabled him to identify further witnesses to the commentary and works dependent on it. Dorfbauer's critical edition, to be published in the CSEL series in 2017, makes this work available to scholarship for the first time in over a millennium. The discovery of a new work from late antiquity is always a landmark in the history of research. This extensive commentary shines new light on fourth-century biblical interpretation and the exegetical practices and literary work of an African bishop ministering in north Italy in this period. What is more, it appears to be dependent on works by Origen and Victorinus of Poetovio which are no longer preserved. In order to make this important work available to a wider audience, Dr Houghton has prepared an English translation and introduction in conjunction with the COMPAUL project on the earliest commentaries on the New Testament as sources for the biblical text.
