"One Sabbath morning more than two hundred years ago, the dawn broke clear and beautiful over New England. It was one of those lovely mornings that seem like a benediction, a smile of God upon the earth, so calm are they, so full of unutterable rest and quiet. Over the sea, with its endless line of beach and promontory washed softly by the ocean swells; over the towns of the coast,—Boston and Salem,—already large, giving splendid promise of the future; over the farms and hamlets of the interior, and into the rude clearings where the outer limits of civilization mingled with the primeval forest, came a flood of light as the sun rose above the blue line of eastern sea..." Frederic Homer Balch was born in Oregon but had converted to Christianity at the age of 21. He became a preacher and helped establish a lot of churches in Oregon. His keen interest in Native Indian folklore and belief gave him a deep insight into their customs and rituals.

Killing, Borgen, The Bridge and The Legacy demonstrate widespread fascination with Danish style, aesthetics and culture as seen through television narratives. This book uses familiar, alongside lesser known, case studies of drama series to demonstrate how the particular features of Danish production - from work cultures, to storytelling techniques and trans-national cooperation - have enhanced contemporary Danish drama's appeal both at home and abroad. The era of globalisation has blurred national and international television cultures and promoted regular cross-fertilisation between film and television industries. Important questions have emerged from this context surrounding, for example, the 'Americanisation' of foreign television formats, the meaning and practice behind the term 'quality television', and the purpose and efficacy of public service broadcasting. Beyond the Bridge tackles these issues in relation to Danish television, by examining the so-called 'scaffolded production processes' behind the making of quality serials and their thought-provoking content. Drawing on popular motifs from these celebrated dramas such as foreign politics, organised crime, global warming, and the impact of multinational corporations, this timely book provides crucial insight into the Danish dramas at the forefront of sophisticated, forward-thinking, fictional television.

The overriding aim of this groundbreaking volume—whether the subject is vocal ornamentation in 19th-century opera or the collective improvisation of the Grateful Dead—is to give new recognition to performance as the core of musical culture. The

collection brings together renowned scholars from performance studies and musicology (including Philip Auslander, David Borgo, Daphne Brooks, Nicholas Cook, Maria Delgado, Susan Fast, Dana Gooley, Philip Gossett, Jason King, Elisabeth Le Guin, Aida Mbowa, Ingrid Monson, Roger Moseley, Richard Pettengill, Joseph Roach, and Margaret Savilonis), with the intent of sparking a productive new dialogue on music as performance. Taking It to the Bridge is on the one hand a series of in-depth studies of a broad range of performance artists and genres, and on the other a contribution to ongoing methodological developments within the study of music, with the goal of bridging the approaches of musicology and performance studies, to enable a close, interpretive listening that combines the best of each. At the same time, by juxtaposing musical genres that range from pop and soul to the classics, and from world music to games and web-mediated performances, Taking It to the Bridge provides an inventory of contrasted approaches to the study of performance and contributes to its developing centrality within music studies.

In this personal account, one man details how he discovered the fact of reincarnation and explores what he did in his prior lives. More people than you would believe have prior life memories. In his new spiritual memoir My Journey down the Reincarnation Highway: The True Story of a Man who found nine of His Past Lives author and businessman Frank Mares tells how he acquired psychic ability in his middle age. With this new gift, he recovered facts about nine of his

prior lives, most of which involved violent, bloody deaths. The most recent life was that of a young German Wehrmacht sergeant who was ambushed and killed by Russians during the night of May 1, 1944 in a dark Estonian farmhouse. Not being satisfied with just discovering his past lives, Mares goes on a spiritual mission to find out why he kept dying violently. The answers do not come easily, but by using a team of three world class psychics he eventually tracks down the shocking reason for all his brutal deaths. The psychic team finds that within the soul of this normal small businessman resides a brutal, stone cold killer from the 1600's who surprisingly was the revered founder of a gentile noble family. As part of his soul's continuing quest for redemption, Mares hopes to salvage the dark time in his soul's past into something that could help others today. His experiences show that death is only a transition phase, and that it should not be feared. His book also reveals that reincarnation is actually a well designed, organized system that allows souls to learn personalized life lessons over a surprising number of lives. If you read this book, you will never look at life (and death) in the same way again.

Music from behind the Bridge tells the story of the steelband from the point of view of musicians who overcame the disadvantages of poverty and prejudice with their extraordinary ambition. Literally referring to the poor neighborhoods nestled in the hills bordering Port of Spain to the East, "Behind the Bridge" is also a metaphor for conditions of social disadvantage and cultural resistance that shaped the steelband movement in the various Afro-Trinidadian communities where it first took root.

In the brave new Japan of the 1870s, Taka and Nobu meet as children and fall in love; but their relationship will test the limits of society. Unified after a bitter civil war, Japan is rapidly turning into a modern country with rickshaws, railways and schools for girls. Commoners can marry their children into any class, and the old hatred between north and south is over - or so it seems. Taka is from the powerful southern Satsuma clan which now dominates the country, and her father, General Kitaoka, is a leader of the new government. Nobu, however, is from the northern Aizu clan, massacred by the Satsuma in the civil war. Defeated and reduced to poverty, his family has sworn revenge on the Satsuma. Taka and Nobu's love is unacceptable to both their families and must be kept secret, but

what they cannot foresee is how quickly the tables will turn. Many southern samurai become disillusioned with the new regime, which has deprived them of their swords, status and honour. Taka's father abruptly leaves Tokyo and returns to the southern island of Kyushu, where trouble is brewing. When he and his clansmen rise in rebellion, the government sends its newly-created army to put them down. Nobu and his brothers have joined this army, and his brothers now see their chance of revenge on the Satsuma. But Nobu will have to fight and maybe kill Taka's father and brother, while Taka now has to make a terrible choice - between her family and the man she loves ...

A BRIDGE TO ELNE is based on a true story of a courageous family who endured the German occupation of France during WWII. Marcel Pointer is a successful dentist in Marseille until Nazi brutality leads him to join the Maquis, the militant branch of the French Resistance. He conducts several successful raids against the Vichy and the Germans, and is arrested by the Gestapo. After beating and interrogating him without obtaining evidence of his guilt, they finally release him. Aware of the increased danger, he decides to move his wife Angelina and their four children to Elne, a small village at the foot of the Pyrenees near the Mediterranean Sea. He returns to fight, leaving them with Paul and Elizabeth Courty, Angelina's parents, and her sister Paulette. In November

1942, the Germans move their troops into the southern, unoccupied zone of France. Captain Johann Weller is sent to Elne with his German engineering battalion to build fortifications along the Mediterranean coast. Each family in the village is ordered to house a German officer. Johann is assigned to the Courty home. At first there is much tension, but with time Johann earns a degree of respect from the Courty's and Pontier's. He is not the evil monster they had expected. That doesn't alter the fact that by participating in the occupation, he is helping to further the Nazi cause with all its evil. Paulette comes to know him well, and over time they develop a close relationship. Only the taboos created by the war and occupation keep her from responding to his overtures. Paulette works for the mayor of Elne, where the Germans now make their headquarters. Speaking fluent German, she makes good use of her office next to the commandant's to access their conversations and plans, and is able to help the Resistance by funneling this information to Marcel. This is complicated by Johann's interest in her, and she is unsure how much he can be trusted. When the Germ

This engrossing book presents the first collection in more than three decades of one of America's finest drama critics. Richard Gilman chronicles a major period in American theater history, one that witnessed the birth or spread of Off-Broadway, regional theater, nonprofit companies, and avant-garde performance, as well as growing interest

in plays by women and minorities and in world drama. His writing, however, is more than a revealing look at an era. It is criticism for the ages. Insightful, provocative, and impassioned, the articles represent the full range of Gilman's interests. There are essays, profiles, and book reviews dealing with such topics as the "new naturalism" in theater, Brecht's collected plays, and the legacy of Stanislavski. There is also a generous sampling of Gilman's comments on plays by O'Neill, Miller, Chekhov, Albee, Ibsen, Anouilh, Beckett, Ionesco, Pinter, Fugard, and many others.

The untold story of how one sensational trial propelled a self-taught lawyer and a future president into the national spotlight. In May of 1856, the steamboat Effie Afton barreled into a pillar of the Rock Island Bridge, unalterably changing the course of American transportation history. Within a year, long-simmering tensions between powerful steamboat interests and burgeoning railroads exploded, and the nation's attention, absorbed by the Dred Scott case, was riveted by a new civil trial. Dramatically reenacting the Effie Afton case—from its unlikely inception, complete with a young Abraham Lincoln's soaring oratory, to the controversial finale—this "masterful" (Christian Science Monitor) account gives us the previously untold story of how one sensational trial propelled a self-taught lawyer and a future president into the national spotlight.

This book is the first to focus on the role of European television crime drama on the
international market. As a genre, the television crime drama has enjoyed a long and
successful career, routinely serving as a prism from which to observe the local, national
and even transnational issues that are prevalent in society. This extensive volume
explores a wide range of countries, from the US to European countries such as Spain,
Italy, the Scandinavian countries, Germany, England and Wales, in order to reveal the
very currencies that are at work in the global production and circulation of the TV crime

drama. The chapters, all written by leading television and crime fiction scholars, provide readings of crime dramas such as the Swedish-Danish *The Bridge*, the Welsh *Hinterland*, the Spanish *Under Suspicion*, the Italian *Gomorra*, the German *Tatort* and the Turkish *Cinayet*. By examining both European texts and the 'European-ness' of various international dramas, this book ultimately demonstrates that transnationalism is at the very core of TV crime drama in Europe and beyond.

At the dawn of the 1990s, as the United States celebrated its victory in the Cold War and sole superpower status by waging war on Iraq and proclaiming democratic capitalism as the best possible society, the 1990s underground punk renaissance transformed the punk scene into a site of radical opposition to American empire. Nazi skinheads were ejected from the punk scene; apathetic attitudes were challenged; women, Latino, and LGBTQ participants asserted their identities and perspectives within punk; the scene debated the virtues of maintaining DIY purity versus venturing into the musical mainstream; and punks participated in protest movements from animal rights to stopping the execution of Mumia Abu-Jamal to shutting down the 1999 WTO meeting. Punk lyrics offered strident critiques of American empire, from its exploitation of the Third World to its warped social relations. Numerous subgenres of punk proliferated to deliver this critique, such as the blazing hardcore punk of bands like Los Crudos, propagandistic crust-punk/dis-core, grindcore and power violence with tempos over 800 beats per minute, and So-Cal punk with its combination of melody and

hardcore. Musical analysis of each of these styles and the expressive efficacy of numerous bands reveals that punk is not merely simplistic three-chord rock music, but a genre that is constantly revolutionizing itself in which nuances of guitar riffs, vocal timbres, drum beats, and song structures are deeply meaningful to its audience, as corroborated by the robust discourse in punk zines.

The Rough Guide to Australia is the indispensable travel companion to this vast, stunning, totally unique destination. Whether you're making a bee-line for the beaches, stepping out on a wine tour, heading-off on an Outback adventure or packing it Unbecoming Cinema constitutes a welcome addition to texts that provide a film-philosophical perspective on films that otherwise take on and involve difficult subject matter, including in this case suicide, autistic worldviews, hallucinatory aesthetics and vomit-gore. The book in effect argues successfully and intelligently that even though hard to watch, many of these films can provide for viewers an opportunity to come to a renewed understanding of self and world. As a result, the author takes on difficult topics, but brings them to life in an exciting, philosophical fashion that also asks readers to rethink what it is that constitutes cinema.
