

## The Crusades A History

A comprehensive history of the Crusades ranges from the eleventh century to modern times, and includes commentary on the art and architecture associated with the Crusades and insights into the history of the knightly orders.

Engaging the Crusades is a series of volumes which offer windows into a newly-emerging field of historical study: the memory and legacy of the Crusades. Together these volumes examine the reasons behind the enduring resonance of the Crusades and present the memory of crusading in the modern period as a productive, exciting and much needed area of investigation.

Controversial Histories assembles current international views on the Crusades from across Europe, Russia, Turkey, the USA and the Near and Middle East. Historians from the related countries present short narratives that deal with two questions: What were the Crusades? and What do they mean to "us" today? Narratives are from one of possible several "typical" points of view of the related country and present an international comparison of the dominant image of each respective historical culture and cultures of remembrance. Bringing together 'victim perspectives' and 'perpetrator perspectives', 'key players' and 'minor players', they reveal both shared and conflicting memories of different groups. The narratives are framed by an introduction about the historical and political significance of the Crusades, and the question of history education in a globalized world with contradicting narratives is discussed, along with guidelines on how to use the book for teaching at university level. Offering extensive material and presenting a profile of international, academic opinions on the Crusades, Controversial Histories is the ideal resource for students and educators of Crusades history in a global context as well as military history and the history of memory.

"Pulls off the enviable feat of summing up seven centuries of religious warfare in a crisp 309 pages of text."--Dennis Drabelle, Washington Post Book World In this authoritative work, Jonathan Riley-Smith provides the definitive account of the Crusades: an account of the theology of violence behind the Crusades, the major Crusades, the experience of crusading, and the crusaders themselves. With a wealth of fascinating detail, Riley-Smith brings to life these stirring expeditions to the Holy Land and the politics and personalities behind them. This new edition includes revisions throughout as well as a new Preface and Afterword in which Jonathan Riley-Smith surveys recent developments in the field and examines responses to the Crusades in different periods, from the Romantics to the Islamic world today. From reviews of the first edition: "Everything is here: the crusades to the Holy Land, and against the Albigensians, the Moors, the pagans in Eastern Europe, the Turks, and the enemies of the popes. Riley-Smith writes a beautiful, lucid prose, . . . [and his book] is packed with facts and action."--Choice "A concise, clearly written synthesis . . . by one of the leading historians of the crusading movement."--Robert S. Gottfried, Historian "A lively and flowing narrative [with] an enormous cast of characters that is not a mere catalog but a history. . . . A remarkable achievement."--Thomas E. Morrissey, Church History "Superb."--Reuven S. Avi-Yonah, Speculum "A first-rate one-volume survey of the Crusading movement from 1074 . . . to 1798."--Southwest Catholic

A history of the crusades examines the conflicts between and within the major religions, and describes in detail the various historical campaigns, complete with color illustrations and informational sidebars.

A lively reimagining of how the distant medieval world of war functioned, drawing on the objects used and made by crusaders Throughout the Middle Ages crusading was justified by religious ideology, but the resulting military campaigns were fueled by concrete objectives: land, resources, power, reputation. Crusaders amassed possessions of all sorts, from castles to reliquaries. Campaigns required material funds and equipment, while conquests produced bureaucracies, taxation, economic exploitation, and commercial regulation. Wealth sustained the Crusades while material objects, from weaponry and military technology to carpentry and shipping, conditioned them. This lavishly illustrated volume considers the material trappings of crusading wars and the objects that memorialized them, in architecture, sculpture, jewelry, painting, and manuscripts. Christopher Tyerman's incorporation of the physical and visual remains of crusading enriches our understanding of how the crusaders themselves articulated their mission, how they viewed their place in the world, and how they related to the cultures they derived from and preyed upon. A note to readers: the grey-shaded pages throughout this volume look at the Crusades in detail, exploring individual themes such as food and drink, medicine, weapons and women's role in the Crusades. These short essays are interspersed throughout the chapters and the main text will continue after each one. For instance, 'Taking the Cross' runs from pages 4 to 7, and the Introduction continues on p. 8.

In 1099, when the first crusaders arrived triumphant and bloody before the walls of Jerusalem, they carved out a Christian European presence in the Islamic world that remained for centuries, bolstered by subsequent waves of new crusades and pilgrimages. But how did medieval Muslims understand these events? What does an Islamic history of the Crusades look like? The answers may surprise you. In *The Race for Paradise*, we see medieval Muslims managing this new and long-lived Crusader threat not simply as victims or as victors, but as everything in-between, on all shores of the Muslim Mediterranean, from Spain to Syria. This is not just a straightforward tale of warriors and kings clashing in the Holy Land - of military confrontations and enigmatic heroes such as the great sultan Saladin. What emerges is a more complicated story of border-crossers and turncoats; of embassies and merchants; of scholars and spies, all of them seeking to manage this new threat from the barbarian fringes of their ordered world. When seen from the perspective of medieval Muslims, the Crusades emerge as something altogether different from the high-flying rhetoric of the European chronicles: as a diplomatic chess-game to be mastered, a commercial opportunity to be seized, a cultural encounter shaping Muslim experiences of Europeans until the close of the Middle Ages - and, as so often happened, a political challenge to be exploited by ambitious rulers making canny use of the language of jihad.

*The Crusades: A History* is the definitive account of a key topic in medieval and religious history. Jonathan Riley-Smith, a world authority on the subject, explores the organisation of a crusade, the experience of crusading and the crusaders themselves, producing a textbook that is as accessible as it is comprehensive. This exciting new third edition includes: - Substantial new material on crusade theory, historiography and translated texts - An expanded scope that extends the text to cover the decline of crusading in the nineteenth century - Valuable pedagogical features, such as a revised bibliography, maps, illustrations and a brand new chronology This book is essential reading for all students and scholars seeking to understand the Crusades and their significance in world history.

A major new history of the Crusades with an unprecedented wide scope, told in a tableau of portraits of people on all sides of the wars, from the author of *Powers and Thrones*. For more than one thousand years, Christians and Muslims lived side by side, sometimes at peace and sometimes at war. When Christian armies seized Jerusalem in 1099, they began the most notorious period of conflict between the two religions. Depending on who you ask, the fall of the holy city was either an inspiring legend or the greatest of horrors. In *Crusaders*, Dan

Jones interrogates the many sides of the larger story, charting a deeply human and avowedly pluralist path through the crusading era. Expanding the usual timeframe, Jones looks to the roots of Christian-Muslim relations in the eighth century and tracks the influence of crusading to present day. He widens the geographical focus to far-flung regions home to so-called enemies of the Church, including Spain, North Africa, southern France, and the Baltic states. By telling intimate stories of individual journeys, Jones illuminates these centuries of war not only from the perspective of popes and kings, but from Arab-Sicilian poets, Byzantine princesses, Sunni scholars, Shi'ite viziers, Mamluk slave soldiers, Mongol chieftains, and barefoot friars. Crusading remains a rallying call to this day, but its role in the popular imagination ignores the cooperation and complicated coexistence that were just as much a feature of the period as warfare. The age-old relationships between faith, conquest, wealth, power, and trade meant that crusading was not only about fighting for the glory of God, but also, among other earthly reasons, about gold. In this richly dramatic narrative that gives voice to sources usually pushed to the margins, Dan Jones has written an authoritative survey of the holy wars with global scope and human focus.

In this masterly work, Robert Payne brings to life the Crusades that founded vast kingdoms in Palestine nearly 1,000 years ago. This is a story of battles and valor, greed and piety, folly and baseness that mark the first major clash of Christianity and Islam. The book covers all 8 Crusades over 200 years, from the first in 1095, inspired by Pope Urban II, to Louis IX's disastrous Crusade of 1270. This highly readable book is a major contribution to our understanding of the Middle Ages. "Displays his full powers of Payne both as a scholar and storyteller." Originally published in Great Britain in 1986. Maps and B&W photos.

What is the relationship between the medieval crusades and the problems of the modern Middle East? Were the crusades the Christian equivalent of Muslim jihad? In this sweeping yet crisp history, Thomas F. Madden offers a brilliant and compelling narrative of the crusades and their contemporary relevance. Placing all of the major crusades within their social, economic, religious, and intellectual environments, Madden explores the uniquely medieval world that led untold thousands to leave their homes, families, and friends to march in Christ's name to distant lands. From Palestine and Europe's farthest reaches, each crusade is recounted in a clear, concise narrative. The author gives special attention as well to the crusades' effects on the Islamic world and the Christian Byzantine East.

European and Arab versions of the Crusades have little in common. For Arabs, the twelfth and thirteenth centuries were years of strenuous efforts to repel a brutal and destructive invasion by barbarian hordes. Under Saladin, an unstoppable Muslim army inspired by prophets and poets finally succeeded in destroying the most powerful Crusader kingdoms. The memory of this greatest and most enduring victory ever won by a non-European society against the West still lives in the minds of millions of Arabs today. Amin Maalouf has sifted through the works of a score of contemporary Arab chroniclers of the Crusades, eyewitnesses and often participants in the events. He retells their stories in their own vivacious style, giving us a vivid portrait of a society rent by internal conflicts and shaken by a traumatic encounter with an alien culture. He retraces two critical centuries of Middle Eastern history, and offers fascinating insights into some of the forces that shape Arab and Islamic consciousness today. 'Well-researched and highly readable.' Guardian 'A useful and important analysis adding much to existing western histories ... worth recommending to George Bush.' London Review of Books 'Maalouf tells an inspiring story ... very readable ... warmly recommended.' Times Literary Supplement 'A wide readership should enjoy this vivid narrative of stirring events.' The Bookseller 'Very well done indeed ... Should be put in the hands of anyone who asks what lies behind the Middle East's present conflicts.' Middle East International

The second volume of Steven Runciman's classic, hugely influential trilogy on the history of the Crusades 'There was magic about. Saladin himself was troubled by terrible dreams...' Steven Runciman's unrivalled history of the Crusades is a classic of learning and vivid, compelling storytelling, which brilliantly brings to life the personalities, battles, massacres, triumphs and follies of these epochal events. In this second volume of his trilogy Runciman tells the story of the foundation of the Kingdom of Jerusalem, the disastrous, bloody Second Crusade and the inexorable rise of the crusaders' nemesis, Saladin. 'The pre-eminent historian of the Byzantine Empire and of the Crusades ... a surefooted guide who could render the past visible and familiar' Daily Telegraph 'He tells his story plain ... always pleasurable to read' Gore Vidal The Crusades is an authoritative, accessible single-volume history of the brutal struggle for the Holy Land in the Middle Ages. Thomas Asbridge—a renowned historian who writes with “maximum vividness” (Joan Acocella, *The New Yorker*)—covers the years 1095 to 1291 in this big, ambitious, readable account of one of the most fascinating periods in history. From Richard the Lionheart to the mighty Saladin, from the emperors of Byzantium to the Knights Templar, Asbridge's book is a magnificent epic of Holy War between the Christian and Islamic worlds, full of adventure, intrigue, and sweeping grandeur.

Analyzes the Crusades from European and Arabic viewpoints

Chronicles the long, bloody history of the Crusades and demonstrates how this three-hundred-year-long struggle to control the Middle East changed Europe, and the world, forever.

During the late 11th through the early 14th centuries at least seven major expeditions were made between Western Europe and the Holy Land with the goal of ending Muslim control of Jerusalem. Ultimately the crusaders were driven out, but not before a cultural exchange had taken place that had an immense impact on Western Europe and an equally enormous, albeit less positive, impact on Arabs and the Islamic world. Although the crusades occurred many centuries ago, echoes still resound through the current clashes of nations and ideologies, kidnappings for ransom, assassinations, and the declaring of "jihad" - all making the crusades an eminently timely subject. This one-volume overview provides an accessible reference work for scholars, students, and general readers on the period with numerous entries on key persons, places, events, battles and sieges, use of weapons and armor, and the deeper issues of the political and cultural background. Complete with a detailed chronology and a bibliography, this work allows readers to learn how Europe was changed forever by these battles with Islam.

'A nuanced and sophisticated analysis... Exhilarating' Sunday Telegraph Nine hundred years ago, one of the most controversial episodes in Christian history was initiated. The Pope stated that, in spite of the apparently pacifist message of the New Testament, God actually wanted European knights to wage a fierce and bloody war against Islam and recapture Jerusalem. Thus was the First Crusade born. Focusing on the characters that drove this extraordinary campaign, this fascinating period of history is recreated through awe-inspiring and often barbaric tales of bold adventure while at the same time providing significant insights into early medieval society, morality and mentality. The First Crusade marked a watershed in relations between Islam and the West, a conflict that set these two world religions on a course towards deep-seated animosity and enduring enmity. The chilling reverberations of this earth-shattering clash still echo in the world today. '[Asbridge] balances persuasive analysis with a flair for conveying with dramatic power the crusaders' plight' Financial Times

In this sweeping yet crisp history, the author offers a brilliant and compelling narrative of the Crusades and their contemporary relevance.

The Crusades: A History is a comprehensive, single-volume history of the Crusades, from their beginnings in the eleventh century through to their decline and eventual ending at the close of the eighteenth century. As well as providing an account of the major Crusades, the book describes the organization of a Crusade, the experience of crusading and the Crusaders themselves. In a new preface and afterword, Jonathan Riley-Smith surveys recent developments in the field and examines responses to the Crusades in different periods, from the Romantics to the Islamic world today. The book concludes with a challenge to a historiographical

tradition that has often been fraught with controversy. In a fully revised second edition, this remains the standard and authoritative account of the fascinating history of the Crusades.

This is a comprehensive history of the crusades, from their beginnings in the 11th century through their decline and eventual ending at the close of the 18th century.

The Crusades were a series of military campaigns undertaken by Western European countries between the 11th and 16th century. Originally called by the Pope of the Catholic Church, the stated first goal was to take up the cross and restore Christian control over the Holy Land (namely Jerusalem). In total Western Europe engaged in over 10 crusades, though not all were for this original purpose. At first the Crusades were fought to assist the Byzantine Empire, who requested European help in fighting off the expansion of the Muslim Turks. In time, though, the term crusade was used to describe wars against pagans, heretics, and those threatened with excommunication from the Church. Interesting, one set of Crusades actually led to an alliance between Christians and Muslims, and another was called against fellow Catholics. Jonathan Howard looks into the history of the crusades in this short eBook.

Why did the medieval Church bless William of Normandy's invasion of Christian England in 1066 and authorise cultural genocide in Provence? How could a Christian army sack Christian Constantinople in 1204? Why did thousands of ordinary men and women, led by knights and ladies, kings and queens, embark on campaigns of fanatical conquest in the world of Islam? The word 'Crusade' came later, but the concept of a 'war for the faith' is an ancient one. Geoffrey Hindley instructively unravels the story of the Christian military expeditions that have perturbed European history, troubled Christian consciences and embittered Muslim attitudes towards the West. He offers a lively record of the Crusades, from the Middle East to the pagan Baltic, and fascinating portraits of the major personalities, from Godfrey of Bouillon, the first Latin ruler of Jerusalem, to Etienne, the visionary French peasant boy who inspired the tragic Children's Crusade. Addressing questions rarely considered, Hindley sheds new light on pressing issues surrounding religious division and shows how the Crusades have helped to shape the modern world and relations between Christian and Muslim countries to this day.

The six volumes of A History of the Crusades will stand as the definitive history of the Crusades, spanning five centuries, encompassing Jewish, Moslem, and Christian perspectives, and containing a wealth of information and analysis of the history, politics, economics, and culture of the medieval world.

'Wonderfully written and characteristically brilliant' Peter Frankopan, author of The Silk Roads 'Elegant, readable ... an impressive synthesis ... Not many historians could have done it' - Jonathan Sumption, Spectator 'Tyerman's book is fascinating not just for what it has to tell us about the Crusades, but for the mirror it holds up to today's religious extremism' - Tom Holland, Spectator Thousands left their homelands in the Middle Ages to fight wars abroad. But how did the Crusades actually happen? From recruitment propaganda to raising money, ships to siege engines, medicine to the power of prayer, this vivid, surprising history shows holy war - and medieval society - in a new light. Learn all about the Crusades.

Written by a team of leading scholars, this fascinating book presents an authoritative and comprehensive history of the Crusades, from the preaching of the First Crusade in 1095 to the legacy of crusading ideas and imagery today. Reflecting the recent developments in crusade historiography, it covers crusading in many different theatres of war. The concepts of apologists, propagandists, song-writers, and poets, and the perceptions and motives of the crusaders themselves are described, as are the emotional and intellectual reactions of the Muslims to Christian holy war. The institutional developments - legal, financial, and structural - which were necessary to the movement's survival - are analysed. Several chapters are devoted to the western settlements established in the eastern Mediterranean region in the wake of the crusades, to the remarkable art and architecture associated with them, and to the military orders. The subject of the later crusades, including the history of the military orders from the sixteenth to the eighteenth centuries, is given the attention it deserves. And the first steps are taken on to a field that is as yet hardly explored - the survival of the ideas and images of crusading into the nineteenth and twentieth centuries.

A history of the First Crusade provides an account of the three-year expedition to the Holy Land, describing the mobilization of the crusaders in Europe, the journey to Constantinople and the Middle East, their struggle against Muslim armies, and the impa

In 1095 Pope Urban II called upon Christians to march under the banner of the Cross and save their brothers in the East from the advance of Islam. This vision of crusading Christianity dominated the events of the next two centuries and brought together people of all ages and backgrounds, sworn to spread Christianity and wrest the Holy Land from the Infidel. First published to accompany the acclaimed BBC television series, 'Crusades' tells the compelling, often horrific, story of the fanatics and fantasists, knights and peasants who were caught up in these fervent times. It reveals how Muslims, Jews and Christians were massacred, and how the Crusades sowed the seeds of 'jihad', the holy war for Islam, a legacy that endures today.

From an internationally renowned expert, here is an accessible and utterly fascinating one-volume history of the Crusades, thrillingly told through the experiences of its many players—knights and sultans, kings and poets, Christians and Muslims. Jonathan Phillips traces the origins, expansion, decline, and conclusion of the Crusades and comments on their contemporary echoes—from the mysteries of the Templars to the grim reality of al-Qaeda. Holy Warriors puts the past in a new perspective and brilliantly sheds light on the origins of today's wars. Starting with Pope Urban II's emotive, groundbreaking speech in November 1095, in which he called for the recovery of Jerusalem from Islam by the First Crusade, Phillips traces the centuries-long conflict between two of the world's great faiths. Using songs, sermons, narratives, and letters of the period, he reveals how the success of the First Crusade inspired generations of kings to campaign for their own vainglory and set down a marker for the knights of Europe, men who increasingly blurred the boundaries between chivalry and crusading. In the Muslim world, early attempts to call a jihad fell upon deaf ears until the charisma of the Sultan Saladin brought the struggle to a climax. Yet the story that emerges has other dimensions—as never before, Phillips incorporates the holy wars within the story of medieval Christendom and Islam and shines new light on many truces, alliances, and diplomatic efforts that have been forgotten over the centuries. Holy Warriors also discusses how the term “crusade” survived into the modern era and how its redefinition through romantic literature and the drive for colonial empires during the nineteenth century gave it an energy and a resonance that persisted down to the alliance between Franco and the Church during the Spanish Civil War and right up to George W. Bush's pious “war on terror.” Elegantly written, compulsively readable, and full of stunning new portraits of unforgettable real-life figures—from Richard the Lionhearted to Melisende, the formidable crusader queen of Jerusalem—Holy Warriors is a must-read for anyone interested in medieval Europe, as well as for those seeking to understand the history of religious conflict.

An unparalleled illustrated history of the crusading knight, the lands they lost and won, and the inspiration that motivated them.

A new series of bespoke, full-coverage resources developed for the AQA 2015 A/AS Level History. Written for the AQA A/AS Level History specifications for first teaching from 2015, this print Student Book provides full coverage of The Age of the Crusades, c1071-1204 Breadth component. Completely matched to the new AQA specification, this full-colour Student Book provides valuable background information to contextualise the period of study. Supporting students in developing their critical thinking,

research and written communication skills, it also encourages them to make links between different time periods, topics and historical themes.
