

The Pronunciation Of The Aspirated Consonants P T And K

Aspiration in Oriya on the observer's own pronunciation with texts in phonetic transcription

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

The Italian spoken in most of Tuscany is characterized by a number of peculiar pronunciations which for over half a century Romance scholars have explained by a theory of linguistic substratum influence. This theory postulates that present-day Tuscan pronunciation is a survival of the 'foreign accent' with which the ancient Etruscans must have spoken Latin when Rome first began to extend its power and language over the rest of Italy. Professor Izzo has undertaken a new and thorough investigation of modern Tuscan pronunciation, disproving this hypothesis and providing a definitive conclusion to the debate. He delineates clearly the errors in reasoning of those who trace the Tuscan pronunciation to an Etruscan influence, and presents his conclusions objectively. This study will interest Romance linguists, especially historians of the Italian language; but it will also interest historical linguists in general, for by disproving one of the most plausible and best-documented cases of alleged substratum influence, it casts doubt on many other cases where such influence has been claimed with little evidence.

This revised and updated edition of Modern German Pronunciation offers the most complete guide to the correct pronunciation of German for native speakers of English. It begins with an introduction to the problems of pronunciation and the basic concepts of phonetics. The following chapters take each aspect of pronunciation in turn: consonants, vowels, stress and intonation, and the conversational pronunciation of German with its many reduced or "weak" forms. The text is comprehensively illustrated with clear pronunciation and intonation diagrams and the emphasis is on the problems that speakers of English are known to encounter when learning to speak German. This second edition has been revised and updated, taking into account comments and suggestions from readers and adapting the German texts to the new official spelling. A significant new feature is the discussion of English-speaking learners of German has been extended to include American learners, reflecting the use world-wide of the first edition of this volume.

The Pronunciation of English deals comprehensively with the English sounds, stress, rhythm, and intonation in a single volume. The description of English sounds is based on the sound classification and on the symbols used by Prof. Daniel Jones, a great authority on English phonetics. Our practice exercises are developed specifically for foreign learners of English. A sound is practiced separately and in contrasts, moving from syllables and words in transcription to those in standard spelling, spelling forms, and sentences (with stress marked and intonation patterns shown by arrow point downward and arrow pointing upward). The pronunciation of words is in accordance with the Oxford Advanced Learner's Dictionary. Work through the book and you will receive a sound training in expressing meaning in English speech, will understand native speakers, and will be understood in a communication.

This course is designed for beginning and intermediate students of American English who need systematic practice in pronunciation: individual sounds, word stress, intonation, and sound-spelling relationships. Pronunciation Pairs covers the most common problem areas in pronunciation, using dialogues, games, and listening and speaking exercises. The book contains a wealth of amusing illustrations, which help students understand the words used and make the practice more interesting.
